Virginia in the Vanguard Frank B. Atkinson, 2006 Virginia in the Vanguard continues the story begun in *The Dynamic Dominion* detailing the resurgence of Virginia s Democratic Party in the 1980s and the Republicans efforts to turn back the gains made by Chuck Robb and Douglas Wilder It closes with Democrat Tim Kaine taking The White House Looks South William E. Leuchtenburg, 2005-10 Perhaps not southerners in the usual sense Franklin D Roosevelt Harry S Truman and Lyndon B Johnson each demonstrated a political style and philosophy that helped them influence the South and unite the country in ways that few other presidents have Combining vivid biography and political insight William E Leuchtenburg offers an engaging account of relations between these three presidents and the South while also tracing how the region came to embrace a national perspective without losing its distinctive sense of place According to Leuchtenburg each man had one foot below the Mason Dixon Line one foot above Roosevelt a New Yorker spent much of the last twenty five years of his life in Warm Springs Georgia where he built a Little White House Truman a Missourian grew up in a pro Confederate town but one that also looked West because of its history as the entrep t for the Oregon Trail Johnson who hailed from the former Confederate state of Texas was a westerner as much as a southerner Their intimate associations with the South gave these three presidents an empathy toward and acceptance in the region In urging southerners to jettison outworn folkways Roosevelt could speak as a neighbor and adopted son Truman as a borderstater who had been taught to revere the Lost Cause and Johnson as a native who had been scorned by Yankees Leuchtenburg explores in fascinating detail how their

unique attachment to place helped them to adopt shifting identities which proved useful in healing rifts between North and South in altering behavior in regard to race and in fostering southern economic growth *The White House Looks South* is the monumental work of a master historian At a time when race class and gender dominate historical writing Leuchtenburg argues that place is no less significant In a period when America is said to be homogenized he shows that sectional distinctions persist And in an era when political history is devalued he demonstrates that government can profoundly affect people s lives and that presidents can be change makers

From the Barrel of a Gun Gerald Horne,2015-12-01 In November 1965 Ian Smith s white minority government in Southern Rhodesia now Zimbabwe made a unilateral declaration of independence breaking with Great Britain With a European population of a few hundred thousand dominating an African majority of several million Rhodesia s racial structure echoed the apartheid of neighboring South Africa Smith s declaration sparked an escalating guerrilla war that claimed thousands of lives Across the Atlantic President Lyndon B Johnson nervously watched events in Rhodesia fearing that racial conflict abroad could inflame racial discord at home Although Washington officially voiced concerns over human rights violations an attitude of tolerance generally marked U S relations with the Rhodesian government sanctions were imposed but not strictly enforced and hundreds perhaps thousands of American mercenaries joined white Rhodesia s side in battle with little to fear from U S laws Despite such tacit U S support Smith s regime fell in 1980 and the independent state of Zimbabwe was born The first comprehensive account of American involvement in the war against Zimbabwe this compelling work also explores how our relationship with Rhodesia helped define interracial dynamics in the United States and vice versa
