What would youth ministry look like if it were based on a pursuit of authentic Christian joy? Joy is not often a word young people associate with church, but it should be. By reimagining three common practices in youth ministry through the theological lens of joy, veteran youth workers Kenda Creasy Dean, Wesley Ellis, Justin Forbes, and Abigail Visco Rusert demonstrate how to shift this association and become more honest about what youth ministry can and can't do to support young people and their faith. Grounding youth ministry in joy rather than in fear also models a way forward for the church. It reminds us that youth ministry is not a tool for anxious congregations to use to ensure their survival. Rather, youth ministry like all ministry is a way to help people name and experience God's delight, free from fear and anxiety about their futures. *Delighted* is the first book to emerge from the Yale Center for Faith and Culture's Adolescent Faith and Flourishing project, offering a sustained reflection on joy's practical importance for youth ministry. With reflection questions offered at the end of each chapter, *Delighted* is easy for youth ministers, volunteers, and pastors to pick up and use immediately, tapping into young people's instinctive desire for joy for the entire church, as well as for ministry with teenagers.

South Seas Hugo Adolf Bernatzik, 1935 **The Sonic Episteme** Robin James, 2019-12-02

In *The Sonic Episteme*, Robin James examines how twenty-first century conceptions of sound as acoustic resonance shape notions of the social world, personhood, and materiality in ways that support white supremacist capitalist patriarchy. Drawing on fields ranging from philosophy and sound studies to black feminist studies and musicology, James shows how what she calls the sonic episteme—a set of sound-based rules that qualitatively structure social practices in much the same way that neoliberalism uses statistics, employs a politics of exception to maintain hegemonic neoliberal and biopolitical projects. Where James sees the normcore averageness of Taylor Swift and Spandau Ballet as contributing to the sonic episteme's marginalization of nonnormative conceptions of gender, race, and personhood, the black feminist political ontologies she identifies in Beyoncé's and Rihanna's music challenge such marginalization. In using sound to theorize political ontology, subjectivity, and power, James argues for the further articulation of sonic practices that avoid contributing to the systemic relations of domination that biopolitical neoliberalism creates and polices.
