wretched population under the shadow of its spire For two years we continued these applications but without avail Then it occurred to me that we should try the business men who were daily passing these scenes of misery and crime Fortunately I struck upon a young merchant of singular conscientiousness of purpose who had felt for a long time the sad evils of the Ward With him I addressed another gentleman of a well known elevation of character and a certain manly persistency that led him never to turn back when he had put his hand to the plow A few personal friends joined them and I soon saw that we were secure of the future Our leader had a great social influence and he at once turned it to aid his philanthropic scheme he himself gave freely and called upon his friends for money The School was founded in 1860 and at once gathered in a large number of the waifs of the First Ward and has had a like happy influence with our other Schools Our treasurer and leader Mr J Couper Lord alas too early taken from us

The Dangerous Class Clyde Barrow, 2020-10-19 Marx and Engels concept of the lumpenproletariat or underclass an anglicized politically neutral term appears in The Communist Manifesto and other writings It refers to the dangerous class the social scum that passively rotting mass thrown off by the lowest layers of old society whose lowly status made its residents potential tools of the capitalists against the working class Surprisingly no one has made a substantial study of the lumpenproletariat in Marxist thought until now Clyde Barrow argues that recent discussions about the downward spiral of the American white working class its main problem is that it is not working have reactivated the concept of the lumpenproletariat despite long held belief that it is a term so ill defined as not to be theoretical Using techniques from etymology lexicology and translation Barrow brings analytical coherence to the concept of the lumpenproletariat revealing it to be an inherent component of Marx and Engels analysis of the historical origins of capitalism However a proletariat that is destined to decay into an underclass may pose insurmountable obstacles to a theory of revolutionary agency in post industrial capitalism Barrow thus updates historical discussions of the lumpenproletariat in the context of contemporary American politics and suggests that all post industrial capitalist societies now confront the choice between communism and dystopia
