Dupuis, 2018-05-08 This title was first published in 2003. This book provides an innovative, fresh approach to entrepreneurship. It puts forward a flexible, expansive conceptualization of the continuum of entrepreneurial behaviour and integrates context, culture, social networks, and entrepreneurship as an embedded activity. Motivated by a desire to bridge traditional academic boundaries, the editors craft a heterodox perspective which interweaves strands from feminist and new institutional economics, sociology, management, finance, marketing, and social policy. Contemporary themes of major significance highlighted include the importance of new technology, ethics, culture, and identity, and entrepreneurship for indigenous, younger, and older people as distinct groups. *Joel Whitburn's Top Pop Singles 1955-2002* Joel Whitburn, 2003 Book A full
