### **Emerging Work Trends in Urban India** Nidhi Tandon, Pratyusha Basu, Omkumar Krishnan, Bhavani R.V., 2022-03-10

This book offers an overview of India's emerging digital economy and the resulting challenges and opportunities for urban workplaces. It examines contemporary economic and social transformations in India by focusing on how new technologies and policies are shaping urban work practices and patterns. The book emphasizes inclusive and equitable practices that consider the needs of the formal and informal sector workforce as essential to India's urban development. Drawing on cross-disciplinary frameworks, it examines key issues related to work trends in the Indian urban economy and its digital landscapes, including Industry 4.0 and technology-labour nexus, smart cities and innovation, urbanism and consumerism, workplace transitions such as service industry and remote work, digital divide, skill development initiatives, and the impact of socio-economic inequalities and disruptions. The authors provide perspectives on the digital future of urban work in India and other emerging economies in the post-COVID-19 phase and underscore the importance of enacting balanced policies, remodelling institutions, and equipping the labour force for adapting to new demands related to future employability and investments. This book will interest students, teachers, and researchers of urban studies, urban sociology, sociology of work, labour studies, human and urban geography, economic geography, urban economics, development studies, urban development and planning, public policy, regional planning, politics of urban development, social and cultural change, urban sustainability, environmental studies, management studies, South Asian Studies, and Global South studies. It will also be useful to policymakers, non-governmental organizations, activists, and those interested in India and the future of the global economy.

*Build Your Tourism Business* Clive Bishop, 2026-03-25. This book was written for you, the person running a small tourism business in a destination that possibly most international travel agents or potential guests have never heard of. The person guiding tours from a base that is not in any glossy brochure yet. The person managing a community-based experience that earns less than it deserves or trying to build something meaningful from the extraordinary natural, cultural, and human assets your region possesses. It was written for the owner who answers WhatsApp messages at eleven at night, who knows every member of the local guiding team by name, who cares not just about this season's bookings but about whether the landscape and the community that make those bookings possible will still be here in twenty years. It was not written for ministries of tourism, international consultancy firms, or development banks. Those institutions have their own extensive literature and their own resources. What they have not reliably produced is a guide written from the perspective of the person actually running the operation, one that takes seriously the reality that most tourism SMEs in emerging destinations begin not with a marketing budget and an international operator relationship but with a product worth visiting, a team that cares, and one honest question: where do we actually start? The answer this book gives to that question is: deliberate start with the market closest to you. Build your domestic market first. Learn your business through the honest feedback of guests who share your language and cultural context. Generate reviews, refine your product, and build a financial base that makes everything else possible.

Extend to regional markets next Then when your product is genuinely excellent and your operational capability is genuinely ready open yourself to the international markets where the highest spending visitors are found *Healthcare Fandom* Christina Speck,2023-09-27 The healthcare industry has undergone significant changes since the introduction of consumer directed health plans As a result an entire cottage industry in health tech was created to drive consumer involvement Despite this consumer engagement remains elusive There is a clear need for fan building in healthcare Fans are a critical engagement component of most industries so how can healthcare remain the exception as it strives to be more consumer friendly This book postulates that to have better or more engaged consumers in healthcare we need to strive to build fans followers and friends First readers are initiated to the complexities in healthcare and necessary mindset changes to create fans and sustained engagement Second a model based on best practices from consumer disciplines provides a blueprint for building healthcare fans Third possible applications for Fandom in healthcare are illustrated with tools and templates to get leaders started on their journey for transformative engagement through Fandom It incorporates wisdom based on interviews and discussions with healthcare leaders so Healthcare Fandom can become the oxygen needed for sustained healthcare engagement *Journey of the Future Enterprise* Jorge Calvo,2020-10-29 To survive in the new competitive digital economy of artificial intelligence and the Internet of Things companies will have to change their management models The company of linear incremental growth is becoming obsolete Moonshot leaders like Elon Musk or Jeff Bezos aspire to bringing about massive transformations These visionaries seek radical solutions to big problems through enabling technologies that are easily scalable and yield increasing returns with decreasing marginal costs that in many cases approach zero In his book *Journey of the Future Enterprise* Jorge Calvo explains what the disruptive change of the Fourth Industrial Revolution consists of what moonshot leadership is and what exponential organizations ExOs are and having set out the conceptual framework explains how to gear companies toward the new economy In short this resource packed book is written for those who want to be part of this change for those who are suffering the impact of this radical transformation for those who feel lost as a result of the complexity and speed of the changes that are taking place and for those who want to better understand the drivers of the Fourth Industrial Revolution *School Counselors as Practitioners* Judy A.
