Arun Kumar,Sanjay Kumar,2005 Contributed articles on study and teaching of Dalit literature in India Rethinking Gramsci Marcus Green,2011-03-30 This edited volume provides a coherent and comprehensive assessment of Antonio Gramsci s significant contribution to the fields of political and cultural theory It contains seminal contributions from a broad range of important political and cultural theorists from around the world and explains the origins development and context for Gramsci s thought as well as analysing his continued relevance and influence to contemporary debates It demonstrates the multidisciplinary nature of Gramscian thought to produce new insights into the intersection of economic political cultural and social processes and to create a vital resource for readers across the disciplines of political theory cultural studies political economy philosophy and subaltern studies *Critical Perspectives on the Denial of Caste in Educational Debate*

João M. Paraskeva,2023-07-27 This volume represents the first exploration of caste in the field of curriculum studies challenging the ongoing silence around the issue of caste in education and curriculum theory Presenting comprehensive critical examination of caste as a category of domination and oppression in the colonial power matrix chapters confront Eurocentric educational epistemologies which deny the existence and influence of caste The book examines the impact of such silence in educational policy praxis and curriculum and draws from leading scholars to illustrate the fluidity of power and oppression in the caste system By challenging historical cultural and institutional origins of caste and foregrounding perspectives from outside Western epistemological frameworks the book pioneers a critical approach to integrating caste in educational debate to interrupt social and cognitive injustices In so doing so the volume advocates for an alternative non derivative curriculum reason through an itinerant curriculum theory as a path toward the emergence of a critical Dalit

educational theory As such it makes a vital contribution for scholars and researchers looking to refine and enhance their knowledge of curriculum studies by highlighting the importance of theorizing caste in the role of education *Combating Social Exclusion* Rajesh K. Chander, 2019-07-01 This book attempts to make a holistic assessment and a humble intervention on the prevalent multiple social exclusion of dalits The study is based in modern India with a focus on Punjab in particular It further substantiates that how caste and other exclusions are a lived reality Challenging entrenched ideas it uses multi disciplinary perspectives methodologies and lived experiences to comprehend dalits social exclusion inter sectionalities and social inequalities It further interrogates linkages between key determinants like landlessness educational attainment asset ownership gender discrimination caste based segregation and discrimination employment economic activity development state intervention policy untouchability political exclusion diaspora effect parallel sites of assertion dalit consciousness heterogeneities amongst dalits with social exclusion inclusion The salient feature of the book that it has covered all the regions of the state and 15 out of the total 39 scheduled castes Drawing on Mixed Methods approach multi regional fieldwork and bottom up perspective this volume puts forward a perceptive analysis It will be of great interest to researchers working in the fields of Social Exclusion Sociology Gender Studies Dalit Studies Caste Studies Social Anthropology Indian Politics Economics Public Administration Public Policy Social Work Human Rights Rural Development Life Long Learning Development Studies Laws and Police Administration **Being Brahmin, Being Modern** Ramesh Bairy, 2013-01-11 There is clearly an academic and political obsession with the idea of the Brahmin There is also simultaneously a near complete absence of engagement with the Brahmin as an embodied person or community This book addresses this intriguing paradox by making available a sociological description of the Brahmins in today s Karnataka It pursues three distinct yet enmeshed registers of inquiry the persona of the Brahmin embodied in the agency of the individual Brahmin the organised complexes of action such as the caste association and the public culture of print and finally taking off from a longer yet modern and contemporary history of non Brahminical othering of the Brahmin It argues that we tend to understand the contemporaneity of caste almost exclusively within the twin registers of legitimation contestation and dominance resistance While these facets continue to be salient there is also a need to push out into hitherto neglected dimensions of caste The book focuses attention on the many lives of modern caste its secularisation the subject positions that it offers the equivocations by which persons and communities become subjects of caste their differential investments in the caste self **Bibliographic Index**, 2007

Dalits and Upper Castes A. Satyanarayana, 2005 This Book Deals With The Inter Relationship Between Caste System Land Control And Domination In Modern Andhra **Seminar**, 2006 [Social Movements in India](#) Ghanshyam Shah, 2004-04-08 Social movements hasn t been a popular topic with researchers making up less than 3 per cent of all studies in history political science sociology and anthropology sponsored by the Indian Council of Social Science Research ICSSR up to the mid nineties The research has had an institutional or government skew in that the study of the politics of the masses

has been largely ignored There are reasons of history behind this but what has been consistently lost sight of is the fact that in the absence of an understanding of the politics of the masses the functioning of the state can be understood only partially This volume is a revised and enlarged edition of the author s review of literature on social movements in India first commissioned by the ICSSR After careful deliberation on the ideal definition of a social movement the author adopts for this volume the loose idea of non institutionalised collective political action striving for social and political change On the basis of the socio economic characteristics of participants and the issues involved this volume makes a nine fold classification of social movements peasant movements tribal movements dalit movements backward caste movements women s movements working class movements students movements middle class movements and human rights and environmental movements added in this edition This book is important as much for filling a scholarly lacuna in social science studies as for proposing and executing an orderly classification of literature on social movements in modern India The original shorter monograph received an enthusiastic response from both scholars and laypersons and this volume is likely to be welcomed similarly
