Kinethic California Dancing Funk and Disco Era Kinships documents the emergence of new forms of black social and
vernacular dance invented by youth living in 1970s California who helped build the foundations of contemporary hip hop
streetdance culture Naomi Macalalad Bragin weaves interviews and ethnographies of first generation 1960s 70s dancers of
strutting boogaloo robotting popping locking waacking and punking styles as it advances a theory of dance as kinetic kinship
formation through a focus on techniques and practices of the dancers themselves She offers that the term given to these
collective movement practices is kinethic to bring attention to motion at the core of black aesthetics that generate dances as
forms of kinship beyond blood relation Kinethics reorient dancers toward kinetic kinship in ways that give continuity to black
dance lineages under persistent conditions of disappearance and loss As dancers engage kinethics they reinvent gestural
vocabularies that describe worlds they imagine into knowing being The stories in Kinethic California attend to the aesthetics
of everyday movement seen through the lens of young artists who from childhood listened to their family s soul and funk
records observed the bent leg strolls and rhythmic handshakes of people moving through their neighborhoods and watched
each other move at house parties school gyms and around the way social clubs Their aesthetic sociality and geographic
movement provided materials for collective study and creative play Bragin attends to such multidirectional conversations
between dancer community and tradition by which California dance lineages emerge and take flight *Contemporary
Directions in Asian American Dance* Yutian Wong,2016-05-11 Original essays and interviews by artists and scholars who are
making defining questioning and theorizing Asian American dance in all its variety *Valuing Dance* Susan Leigh
Foster,2019-02-01 Because dance materializes through and for people because we learn to dance from others and often
present dance to others the moment of its transmission is one of dance s central and defining features Valuing Dance looks at
the occasion when dancing passes from one person to another as an act of exchange one that is redolent with symbolic
meanings including those associated with its history and all the labor that has gone into its making It examines two ways that
dance can be exchanged as commodity and as gift reflecting on how each establishes dance s relative worth and merit
differently When and why do we give dance Where and to whom do we sell it How are such acts of exchange rationalized and

justified Valuing Dance poses these questions in order to contribute to a conversation around what dance is what it does and why it matters

Lynd Ward's Wordless Novels, 1929-1937 Grant F. Scott, 2022-05-30 This book offers the first multidisciplinary analysis of the wordless novels of American woodcut artist and illustrator Lynd Ward (1905-1985) who has been enormously influential in the development of the contemporary graphic novel. The study examines his six pictorial novels, each part of an evolving experiment in a new form of visual narrative that offers a keen intervention in the cultural and sexual politics of the 1930s. The novels form a discrete group, much like Beethoven's piano sonatas or Keats's great odes, in which Ward evolves a unique modernist style: cinematic, expressionist, futurist, realist, documentary, and grapples with significant cultural and political ideas in a moment when the American experiment and capitalism itself hung in the balance. In testing the limits of a new narrative form, Ward's novels require a versatile critical framework as sensitive to German Expressionism and Weimar cinema as to labor politics and the new energies of proletarian homosexuality.
