In a nineteenth century Chinese lacquer box this book's author Joris Escher found two drawings of his great uncle the world famous graphic artist M C Escher. The sheets had not been looked at in more than 90 years. He believes that these early studies may be the missing link in the development of Escher as an artist and starts a voyage of discovery to the origins of the fascinations of his great uncle. Who was his Uncle Mauk? How did he become the world famous artist M C Escher? How did he precisely begin walking down a path on which no one had preceded him and no one would ever follow? Joris Escher relates the artist's life metamorphosis through the eyes of his uncle in four successive parts: his youth, Becoming Mauk, his art education as a young adult, Becoming a Graphic Artist, his happiest years in Italy, Becoming an Artist, and finally already in his late thirties the transformation that leads to his spatial experiments, Becoming Escher. The author relates this journey from the known facts of primary sources: letters, diaries, family albums.
