Dance With Case:

The Body, Dance and Cultural Theory Helen Thomas, 2017-03-14 This book takes its point of departure from the overwhelming interest in theories of the body and performativity in sociology and cultural studies in recent years It explores a variety of ways of looking at dance as a social and artistic bodily practice as a means of generating insights into the politics of identity and difference as they are situated and traced through representations of the body and bodily practices These issues are addressed through a series of case studies

Dance, Embodied Agency and Neuroplasticity in Aging Glenna B. Batson, Bettina E. Bläsing, Aline Nogueira Haas, Christina E. Hugenschmidt, Joseph F. X. DeSouza, 2024-11-18 Dance is a multi sensory and multi modal form of movement expression one that stimulates creative potential for innovative action and intersubjective communication Over the last two decades results from systematic reviews have shown a spectrum of dance styles to be powerful non pharmacological agents in advancing intergenerational health across quality of life domains This Research Topic invites further investigation into the specificity of how the dancing body can access untapped cognitive resources that promote brain health in the elderly While early findings from dance protocols have been shown to impact positively on structural and functional neuroplasticity the link between embodied agency and brain health remains under researched and under theorized Researchers are called to design methodologies that test the ecological validity of dance explicitly examining the interactive effects of sentient expressive movement with cognitive reserve One challenge among many lies in explicating and differentiating the elements of the dancing body itself particularly when outcomes correlate with other forms of movement rich exercise for the elderly
