DeFrantz, 2026-01-09 The Oxford Handbook of Black Dance Studies features forty two chapters of original scholarship that cultivate an awareness of dizzying abundance in Black dance practice The chapters stretch through genres of analysis and intellectual methods With unflappable confidence each chapter tells of differential relations to an African diaspora in motion The rising connectivities of Black Dance Studies offer moments to savor the source codes of activities that emerge in expressive gestures cast in relation to the ever presentness of Black Life *Slave Culture : Nationalist Theory and the Foundations of Black America* Sterling Stuckey Professor of History Northwestern University, 1987-04-23 How were blacks in American slavery formed out of a multiplicity of African ethnic peoples into a single people In this major study of Afro American culture Sterling Stuckey a leading thinker on black nationalism for the past twenty years explains how different African peoples interacted during the nineteenth century to achieve a common culture He finds that at the time of emancipation slaves were still overwhelmingly African in culture a conclusion with profound implications for theories of black

liberation and for the future of race relations in America By examining anthropological evidence about Central and West African cultural traditions Bakongo Ibo Dahomean Mendi and others and exploring the folklore of the American slave Stuckey has arrived at an important new cross cultural analysis of the Pan African impulse among slaves that contributed to the formation of a black ethos He establishes for example the centrality of an ancient African ritual the Ring Shout or Circle Dance to the black American religious and artistic experience Black nationalist theories the author points out are those most in tune with the implication of an African presence in America during and since slavery Casting a fresh new light on these ideas Stuckey provides us with fascinating profiles of such nineteenth century figures as David Walker Henry Highland Garnet and Frederick Douglas He then considers in detail the lives and careers of W E B Dubois and Paul Robeson in this century describing their ambition that blacks in American society while struggling to end racism take on roles that truly reflected their African heritage These concepts of black liberation Stuckey suggests are far more relevant to the intrinsic values of black people than integrationist thought on race relations But in a final revelation he concludes that with the exception of Paul Robeson the ironic tendency of black nationalists has been to underestimate the depths of African culture in black Americans and the sophistication of the slave community they arose from

Subversive Sounds Charles B. Hersch,2008-09-15 *Subversive Sounds* probes New Orleans s history uncovering a web of racial interconnections and animosities that was instrumental to the creation of a vital American art form jazz Drawing on oral histories police reports newspaper accounts and vintage recordings Charles Hersch brings to vivid life the neighborhoods and nightspots where jazz was born This volume shows how musicians such as Jelly Roll Morton Nick La Rocca and Louis Armstrong negotiated New Orleans s complex racial rules to pursue their craft and how in order to widen their audiences they became fluent in a variety of musical traditions from diverse ethnic sources These encounters with other music and races subverted their own racial identities and changed the way they played a musical miscegenation that in the shadow of Jim Crow undermined the pursuit of racial purity and indelibly transformed American culture More than timely Hersch orchestrates voices of musicians on both sides of the racial divide in underscoring how porous the music made the boundaries of race and class New Orleans Times Picayune

Gullah Spirituals Eric Sean Crawford,2021-07-16 In *Gullah Spirituals* musicologist Eric Crawford traces Gullah Geechee songs from their beginnings in West Africa to their height as songs for social change and Black identity in the twentieth century American South While much has been done to study preserve and interpret Gullah culture in the lowcountry and sea islands of South Carolina and Georgia some traditions like the shouting and rowing songs have been all but forgotten This

work which focuses primarily on South Carolina's St Helena Island illuminates the remarkable history, survival, and influence of spirituals since the earliest recordings in the 1860s. Grounded in an oral tradition with a dynamic and evolving character, spirituals proved equally adaptable for use during social and political unrest and in unlikely circumstances. Most notably, the island's songs were used at the turn of the century to help rally support for the United States involvement in World War I and to calm racial tensions between black and white soldiers. In the 1960s, civil rights activists adopted spirituals as freedom songs, though many were unaware of their connection to the island. Gullah Spirituals uses fieldwork, personal recordings, and oral interviews to build upon earlier studies and includes an appendix with more than fifty transcriptions of St Helena spirituals, many no longer performed and more than half derived from Crawford's own transcriptions. Through this work, Crawford hopes to restore the cultural memory lost to time while tracing the long arc and historical significance of the St Helena spirituals.

"To Dance in the Ring of All Creation" William Courtland Johnson, 1997

Jazz Dance Marshall Stearns, Jean Stearns, 1994-03-22

The phrase jazz dance has a special meaning for professionals who dance to jazz music; they use it to describe non-tap body movement and another meaning for studios coast-to-coast teaching Modern Jazz Dance, a blend of Euro-American styles that owes little to jazz and less to jazz rhythms. However, we are dealing here with what may eventually be referred to as jazz dance, and we could not think of a more suitable title. The characteristic that distinguishes American vernacular dance, as does jazz music, is swing, which can be heard, felt, and seen but defined only with great difficulty from the Introduction.

Ascending from Dust Morgan Hawkins, 2022

As a child, I grew up in Charleston, South Carolina, worshipping in a Southern Baptist church. My mother would often take us, my family, to my grandmother's church in the deep woods of South Carolina for a richer experience, and it was here that I got my first glimpse of the Ring Shout. At the time, this private ritual both overwhelmed and captivated me, and the memories of those religious experiences have stayed with me to this day. It has led me to want to learn more about both my ancestral lineage and the unique practice of the Ring Shout. My thesis, *Ascending from Dust*, is meant to preserve the sacred practice of this ritual. The dance film captures and recreates the ritualistic worship experience of African Americans' practice of the Ring Shout and its connection to the modern African American spiritual praise dance known as catching the Holy Ghost. Furthermore, *Ascending from Dust* translates the internal, communal, and non-ego worship experience into a visual film experience that intertwines the past and the present. *Ascending from Dust* is a culmination of three sections: The first section examines song and meditation; the second section explores modern practices of spirituality through song and dance; and the final section is the traditional Ring Shout. Research for this project, which is detailed in this written thesis, explores the history of the Ring Shout, plantation dances of the Southern United States, more generally, Negro Spirituals, and translations of the Ring Shout into current religious practice. This thesis also unpacks my creative process, reflects on the resulting film, and discusses implications for my future work.
