Dangerous Knowing:

A Dangerous Knowing Debbie Epstein, James Sears, 1999-11-01 This book is an exhilarating and important addition to the literature on sexuality and on education. An unusually international collection with contributions on Australia, New Zealand, the Philippines, South Africa, the UK, and the United States, it includes chapters written both by internationally known leaders in the field and by exciting newcomers. The book challenges conventional ways of thinking both about sexuality and about pedagogy, with sections on myth-making, identity, globalization, and interventions in education. It will be a key text for undergraduate and postgraduate students of social and cultural theory, queer studies, gender and women's studies, and education.

Heidegger's Polemos Gregory Fried, 2008-10-01 Gregory Fried offers in this book a careful investigation of Martin Heidegger's understanding of politics. Disturbing issues surround Heidegger's commitment to National Socialism, his disdain for liberal democracy, and his rejection of the Enlightenment. Fried confronts these issues, focusing not on the historical debate over Heidegger's personal involvement with Nazism, but on whether and how the formulation of Heidegger's ontology relates to his political thinking, as expressed in his philosophical works. The inquiry begins with Heidegger's interpretation of Heraclitus, particularly the term *polemos* (war) or, in Heidegger's usage, confrontation. Fried contends that Heidegger invests *polemos* with broad ontological significance, and that his appropriation of the word provides important insights into major strands of his thinking: his conception of the human being, his understanding of truth, and his interpretation of history, as well as the meaning of the so-called turn in his thought. Although Fried finds that Heidegger's politics are continuous with his thought, he also argues that Heidegger's work raises important questions about contemporary identity politics. Fried also shows that many postmodernists, despite attempts to distance themselves from Heidegger, fail to avoid some of the same political pitfalls his thinking entailed.

Assessing Impact in the Greater Mekong Subregion Asian Development Bank, 2014-04-01 Cooperation among the Greater Mekong Subregion (GMS) countries has intensified in recent years. By the end of 2012, the program had mobilized 15.5 billion in investment projects and 311 million in technical assistance (TA), of which ADB's support amounted to 5.5 billion for investments and 108.2 million for TA. This study summarizes a recent major initiative to assess the initial impact of ADB-supported projects under the GMS Program. As part of this exercise, a range of representative projects in the road, transport, health, tourism, and energy sectors were selected for detailed analysis, and research institutes working with international consultants assessed their socioeconomic impact.

Thomas Mann and Shakespeare Tobias Döring, Ewan Fernie, 2015-10-22 Bringing together scholars from diverse disciplines and countries, *Thomas Mann and Shakespeare* is the first book-length study to explore the always fascinating, if sometimes disturbing, connections between Shakespeare and Mann. It establishes startling resonances between the central works of these two authors, pairing, for instance, *Der Zauberberg* with *The Tempest*, *Der Tod in Venedig* with *The Merchant of Venice*, *Tonio Kröger* with *Othello*, and *Love's Labour's Lost* with *Doktor Faustus*. Showing how the conjunction of Shakespeare and

Mann affords new alternative perspectives on fundamental issues such as modernity irony art desire authorship and religion Thomas Mann and Shakespeare challenges the increasingly walled in specialism of literary topics and periodization and demonstrates the scope for new ways of reading in literary studies
