 Computer Buyer's Guide and Handbook ,2000 *Assistive Technology: What Every Educator Needs to Know, 2nd*

Edition Brian Friedlander, 2015-10-01 his reference guide is designed to help educators better understand the value of assistive technology AT in increasing all students access to the general education curriculum and improving the teaching learning process for students with special needs Written by Brian Friedlander the guide shows educators how incorporating assistive technology can help them adhere to the principle of Universal Design for Learning UDL by enabling teachers to design lesson plans that include multiple means of representation expression and engagement When this is done access to the curriculum for students with disabilities increases lessons are more effective and learning improves Assistive Technology What Every Educator Needs to Know answers both the what and how of assistive technology It reviews the built in accessibility features of Windows and OS X Mac operating systems as well as the iOS iPad Android and Chrome Chromebooks operating systems It also recommends and describes specific software apps for desktop and mobile devices that are designed to help build key skills in the areas of reading writing organization and math **Value Line Options**

, 1983 **Environmental Publics** Sally Eden, 2016-12-08 How do ordinary people think about the environment as they go about their daily lives Does thinking about the environment make them do things differently This book is the first to explore the idea of environmental publics that is the ways in which ordinary people engage with environmental issues across different practical contexts of work play and home Emphasising the practices of environmental engagement Environmental Publics examines how people consume the environment learn about it campaign for its protection and enjoy it through their leisure time But the book avoids relying on idealisations of consumers or citizens or theoretical constructs about behavioural norms that have traditionally dominated research in this field Instead this book differentiates environmental publics not by who they are but by what they are doing their daily practices It also analyses specifically the geographies of those practices how what people do affects the environment but in different ways across time and space and at different scales aspects of practices that are neglected in the literature With an interdisciplinary perspective this book will be of interest to students and scholars in geography sociology science and technology studies political science and anthropology It is written in an accessible and readable style so as to be useful for preliminary and more advanced courses in environmental management perception and policy as well as in studies of modern society consumption and environmentalism **The New Penguin**
