

SARA Title III Section 313 Toxic Chemical Release: Reporting Requirements

GECAP of the Georgia Tech Research Institute is a voluntary, non-regulatory environmental compliance program funded by the Georgia Legislature through the University System of Georgia.

What is the SARA Title III §313 Community Right-to-Know Program?

Section 313 Emergency Planning and Community Right-to-Know Act (EPCRA), which is also known as Title III of the Superfund Amendments and Reauthorization Act (SARA), requires certain facilities to report both routine and accidental chemical releases. These businesses must submit reports to the Environmental Protection Agency (EPA) and the state emergency response commission (SERC) by July 1 for each preceding year.

Which facilities must submit Toxic Chemical Release Inventory forms?

EPA's "Toxic Chemical Release Inventory Reporting Form R and Instructions" provides guidance on how to determine if your facility must submit a report. Either Form A or Form R must be sent to the EPA and SERC if a facility is required to comply with EPCRA §313. Choosing the correct EPA Form depends on the type and quantity of chemicals at the facility.

Criteria for reporting a chemical with Form R:

- facility has 10 or more full-time employees; *and*
- facility is included in Standard Industrial Classification (SIC) codes 10, 12, 20-39, 4911, 4931, 4939, 4953, 5169, 5171, 7389¹ or is a federal facility; *and*
- chemical is subject to reporting under Section 313 column of SARA Title III "List of Lists"² (i.e. is a listed chemical), which is also listed in 40 CFR 372.65; *and*
- facility manufactures or processes more than 25,000 pounds/year of a listed chemical or facility otherwise uses more than 10,000 pounds/year of a listed chemical³; *and*
- facility has an "annual reportable amount"⁴ of more

than 500 pounds; *or*

- facility has an "annual reportable amount" less than 500 pounds *but* facility manufactures, processes, *or* otherwise uses more than 1 million pounds⁵.

Criteria for reporting a chemical with Form A:

- facility meets all the criteria previously mentioned for Form R except...
- facility has an "annual reportable amount"⁶ of less than 500 pounds⁷; *and*
- facility manufactures, processes, *or* otherwise uses less than 1 million pounds⁸.

A flow chart for determining applicability of EPCRA §313 requirements is provided at the end of this Tech Guide.

Where do facilities send the forms?

Facilities must report the quantities of both routine and accidental releases of listed toxic chemicals, the maximum amount of each chemical on-site during the calendar year and the amount contained in wastes transported off-site. The reports are sent to the EPA and the SERC in a written or electronic format.
