Cheng Hsin Principles Of Effortless Power:

Cheng Hsin Peter Ralston,1999-01-29 Every once in a while you find a high impact book Something that awakens something deep within and lasts forever This is the one It is a book that you can pick up time and time again and always gets something new out of it or something deeper than you Cheng Hsin is the best introduction for beginners to the internal practice of fighting It is a seminal work that draws on T ai Chi Ch uan Aikido and Pa Kua Chang and was written by the first Westerner ever to win the world championship in a full contact martial arts tournament Cheng Hsin T'ui Shou Peter Ralston,1991 This book provided this beginning tai chi student with a rich methodical philosophical grounding on some concepts that that are at the core of Eastern martial arts Ralston helps the reader develop an awareness quite literally from the ground up **The Spiritual Art of Dialogue** Robert Apatow,1998-06 The Spiritual Art of Dialogue shows how the words we choose directly affect our lives The principles of dialogue can help us to identify negative speech unsound reasoning and misplaced criticism and to understand how we can use discussion as a form of play and as a means of discovering our true inner voice The Book of Not Knowing Peter Ralston,2010-01-26 For fans of Eckhart Tolle a guide to mastering self awareness through direct experience rather than old presumptions or harmful thought patterns Through decades of martial arts and meditation practice Peter Ralston discovered a curious and paradoxical fact that true awareness arises from a state of not knowing Even the most sincere investigation of self and spirit he says is often sabotaged by our tendency to grab too quickly for answers and ideas as we retreat to the safety of the known This Hitchhiker s Guide to Awareness provides helpful guideposts along an experiential journey for those Western minds predisposed to wandering off to old habits cherished presumptions and a stubbornly solid sense of self With ease and clarity Ralston teaches readers how to become aware of the background patterns that they are usually too busy stressed or distracted to notice The Book of Not Knowing points out the ways people get stuck in their lives and offers readers a way to make fresh choices about every aspect of their lives from a place of awareness instead of autopilot **Cheng Hsin T'ui Shou** Peter Ralston,1990-08-01 This book provided this beginning tai chi student with a rich methodical philosophical grounding on some concepts that that are at the core of Eastern martial arts Ralston helps the reader develop an awareness quite literally from the ground up *Ancient Wisdom, New Spirit* Peter Ralston,1994-08-18 Although preceding Peter Ralston s two popular books on the topic The Book of Not Knowing and Pursuing Consciousness this book is adapted from audio recordings of consciousness work being done live with Peter It is a collection of a series of talks and lively dialogues with students exploring the nature of Ralston s unique communications The Genius of Being Peter Ralston,2017-02-28 Peter Ralston s exceptionally lucid trilogy on the nature of human consciousness culminates here in The Genius of Being a book of deep contemplations on the unseen elements that create our world The first volume The Book of Not Knowing garnered much praise as a comprehensive exploration of the depths of self and consciousness The second volume Pursuing Consciousness clarifies the difference

between enlightenment and self transformation and then pairs these two goals in a strikingly effective way This third book is both shorter and more complex taking us straight to the heart of the origins of our experience In a progression of illuminating assertions Ralston shows us how human consciousness carves out distinctions from whatever is absolutely true This dynamic not only generates both self and reality from nothing it imbues them with the quality of objective truth From the time we first distinguish between self and not self as infants we begin making a sequence of existential assumptions that result in the illusion that a self is some ethereal object within This universally accepted assumption persists despite the failure of exhaustive investigations to locate this inner self This book is not for the faint of heart or the casual seeker but contemplating the assertions here empowers you to personally and experientially grasp what is rarely even glimpsed a profound consciousness of the genesis of human experience

Consciousness Dialogues Peter Ralston, 2018-06-12 Peter Ralston responds to 150 questions about consciousness from a global spectrum of people striving to grasp the nature of their own selves This illuminating collection of 150 questions and responses between Peter Ralston and a global spectrum of seekers provides a rare and nuanced look at the nature of consciousness and the path to understanding our true selves Ralston is the author of the groundbreaking trilogy on the existential foundations of the human condition *The Book of Not Knowing Pursuing Consciousness* and *The Genius of Being Here* he has selected inquiries from more than two decades of question and answer exchanges with students as they work their way through his communications The mosaic of viewpoints from an astonishing diversity of real people at all levels of consciousness work yields a narrative that is intricate wide ranging intimate and emotionally honest These dialogues expand our understanding of consciousness test our assumptions and interrogate the very process of inquiry

Pursuing Consciousness Peter Ralston, 2015-03-10 Building on his previous groundbreaking work Peter Ralston once again proves to be a sure footed guide for readers seeking to negotiate the challenging terrain of personal and spiritual growth In accessible language Ralston demonstrates how the lofty goals of self

transformation and enlightenment can be achieved with a no nonsense approach available to anyone willing to reach beyond their current experience of self and reality Pursuing Consciousness is a down to earth handbook for staying focused on the work at hand even while tackling such unsettling tasks as investigating deeply ingrained psychological beliefs and identifying common areas of misunderstanding that hamper transformative growth Ralston explains that deeper levels of consciousness aren't just for monks anyone can have an enlightenment experience He shows that enlightenment does not transform the self and transforming the self does not produce enlightenment Once we grasp that these two pursuits take place in entirely different domains of consciousness we can use each to empower the other Ralston provides specific tools for changing the very person that we experience being His work has been acclaimed by people from a diverse range of disciplines including spiritual teachers psychiatrists cognitive scientists physicists and artists As with Ralston's previous works this book points the way to a direct encounter with the true nature of Being and the possibility of real personal change *Paperbound Books in Print*, 1992 **Beyond Reason** Miki Kashtan, 2000 **The Shaolin Grandmasters' Text**, 2004 For the last 100 years the Order of Shaolin Chan has worked quietly to preserve the traditions philosophy and arts of the Order in the United States of America since 1970 Shaolin and its martial arts have increasingly become a focal point of popular culture Misinformation and disinformation have anchored this growing notoriety In contrast this volume strives to accurately share what is spiritually meaningful and martially significant about Shaolin The living authors are Shaolin monks who wish to remain anonymous but who put the book together largely from written records and orally transmitted teachings from three Shaolin priests all of whom passed away in the 1970s They were Li En Huo Hua Ling Po and Ben Chi Lo **Forthcoming Books** Rose Arny, 1998 **American Book Publishing Record**, 1998 **The British National Bibliography** Arthur James Wells, 2002 *Books in Print*, 1994 [Books In Print 2004-2005](#) Ed Bowker Staff, Staff Bowker, Ed, 2004 **Whitaker's Books in Print**, 1998 *Subject Guide to Books in Print*, 1996
