

Cherry Point

Kathleen Armour

Cherry Point:

Harrier II Lon Nordeen, 2014-02-15 When the first Harrier strike fighter was introduced by the Royal Air Force in the late 1960s it was hailed as a technological breakthrough with its speed vertical short takeoff and landing capability V STOL Today the Harrier II is one of the top weapons of choice for ground troops in Iraq and Afghanistan who need effective air support This book chronicles the incredible development of this tactical fixed wing aircraft a journey that in the author s opinion was successful solely because of the unswerving commitment of the U S Marine Corps In tracing the Harrier II s history Lon Nordeen highlights the teamwork creativity and innovation that went into the design development fielding and operation of this unique aircraft The story begins with the development of the U S Marine Corps air ground team close air support concepts in the 1920s on the battlefields of the Pacific in the Second World War and the Korean conflict Later in Vietnam efforts were directed at improving the aviators response time to calls for air support Seeing V STOL tactical airplanes as the only practical solution to this problem the Marine Corps received their first AV 8As in 1971 and then set out to improve the Harrier s capability This is the Harrier II s story including its near cancellation in the late 1970s during the Carter Administration developmental challenges in the early 1980s international growth path with the addition of night attack capability and radar to its success in the Gulf War Afghanistan and Operation Iraqi Freedom This book includes interviews and insights from those involved from pilots and military commanders to engineers and production personnel and even to those who opposed the program It is the first book to be written about the Harrier II from the U S Marine Corps perspective that also discusses the selection and operational use of the aircraft by the United Kingdom Spain and Italy

United States Marine Corps F-35B East Coast Basing United States. Navy, 2010 [Fairchild C-119 Flying Boxcar](#) Simon D. Beck, 2025-01-31 The Fairchild C 119 Flying Boxcar was the leading and most numerous military cargo and paratroop transport of the United States Armed Services throughout the 1950s Cold War era The Korean War saw the Boxcar earn its keep in the vital role of aerial resupply to U S forces and it returned to front line duties during the Vietnam War as an armed aerial gunship This reference manual records the full service histories both military and civil of all 1 185 C 119 Flying Boxcars built Cross referenced production lists and tables are supported by multiple comprehensive appendices recording combat losses accidents and surviving craft **H.O.
