Finance and Development, June 2017 International Monetary Fund. External Relations Dept.,2017-06-01 This paper focuses on millennials who are increasingly looking to find their way in the sharing economy a phenomenon made possible by the emergence of digital platforms that facilitate the matching of buyer and seller Jobs in the sharing economy like driving for Uber or Lyft help some millennials make ends meet even if such temporary gigs are a far cry from the fulltime jobs with traditional pension plans and other benefits their parents often enjoyed This generation also enthusiastically embraces the services of the sharing economy which provides access to everything from beds to cars to boats without the hassle of ownership Loath to buy big ticket items such as cars and houses millennials have sharply different spending habits from those of preceding generations Millennials confront obstacles to prosperity that their parents didn't face They are better educated than previous generations but in today's world that is not enough to guarantee financial success

The Commons Vangelis Papadimitropoulos,2020-10-20 This book explores the potential creation of a broader collaborative economy through commons based peer production P2P and the emergent role of information and communication technologies ICTs The book seeks to critically engage in the political discussion of commons based peer production which can be classified into three basic arguments the liberal the reformist and the anti capitalist This book categorises the liberal argument as being in favour of the coexistence of the commons with the market and the state Reformists on the other hand advocate for the gradual adjustment of the state and of capitalism to the commons while anti capitalists situate the commons against capitalism and the state By discussing these three viewpoints the book contributes to contemporary debates concerning the future of commons based peer production Further the author argues that for the commons to become a fully operational mode of peer production it needs to reach critical mass arguing that the liberal argument underestimates the reformist insight that technology has the potential to decentralise production thereby forcing capitalism to transition to post capitalism Surveying the three main strands of commons based peer production this book makes the case for a post capitalist commons orientated transition that moves beyond neoliberalism
