Cherry A Life Of Apsley Cherry Gerrard:

Cherry Sara Wheeler,2002 An authorized biography of Antarctic explorer Apsley Cherry Garrard describes his adventures during Scott's doomed expedition to the South Pole and his masterful account of his polar adventures *The Worst Journey in the World* *Captain Scott: Icy Deceits and Untold Realities* Krzysztof Sienicki,2016-11-01 This expertly written book is nothing less than a daring challenge to the prevailing views of Captain Robert F. Scott's journey to the South Pole and consequent disaster. Borrowing from various scientific disciplines, Krzysztof Sienicki lucidly argues against each of the presumed causes of Captain Scott and his companions' deaths. In particular, he demolishes the notions of extreme low temperatures, ferocious winds, and food/fuel shortages as the main causes of the disaster. Using neural network computer simulations, he proves that the Extreme Cold, Snap Never Ending Gale, and food/fuel scarcity never occurred. By eliminating the alleged causes of the disaster, the author provides data and arguments that the deaths of Scott, Wilson, and Bowers were a matter of choice rather than fate. The choice was made long before there was an actual end of food/fuel and long before the end of the physical strength needed to reach delusive salvation at One Ton Depot. **Library Lin's Biographies, Autobiographies, and Memoirs** Linda Maxie,2023-06-15 People are fascinating, but finding the best biography, autobiography, or memoir can be tough with so many to choose from. A moving and original account of the effect of Scott's tragic expedition on the men's wives and families who fame and history have overlooked. *Strange Harvests* Edward Posnett,2020-08-04 An original and magical map of our world and its riches formed of the stories of the small-scale harvests of seven natural objects. In this beguiling book, Edward Posnett journeys to some of the most far-flung locales on the planet to bring us seven wonders of the natural world: eiderdown, edible birds' nests, civet coffee, sea silk, vicuña fiber, vegetable ivory, and guano. These materials are mere commodities to their harvesters, but to their harvesters, they are imbued with myth, tradition, folklore, and ritual and form part of a shared identity and history. *Strange Harvests* follows the journeys of these uncommon products from some of the most remote areas of the world to its most populated urban centers, drawing on the voices of the people and little-known communities who harvest, process, and trade them. Blending history, travel writing, and interviews, Posnett sets these human stories against our changing economic and ecological landscape. What do they tell us about capitalism, global market forces,

and overharvesting How do local microeconomies survive in a hyperconnected world Is it possible for us to live together with different species Strange Harvests makes us see the world with wonder curiosity and new concern The Oxford Companion to World Exploration David Buisseret (ed),2007 Covering all aspects of global exploration from Antarctica to the North Pole The Oxford Companion to World Exploration examines the lives and expeditions of heroic and influential explorers This coverage includes biographies including Lewis and Clark Ferdinand Magellan Cheng Ho Hern n Cort s Ibn Battuta Vitus Bering and Christopher Columbus national expeditions including Portuguese British French Chinese Dutch and Spanish and navigational and marine sciences such as navigational techniques ancient and medieval navigation ocean currents and winds longitude cartography and aerial surveys The Companion s temporal scope ranges from the ancient cultures of Egypt Persia Greece Byzantium China Polynesia and Rome through to modern space exploration The articles have been written by leading scholars from across the globe utilizing the most current scholarship in the field of exploration studies The Companion contains 800 entries supplemented by 150 black and white and 50 full color photographs and maps Annotated primary source materials such as travel logs and personal letters supplement select biographies Each entry is signed by a leading scholar in the field contains a bibliography for further reading and is cross referenced to other useful points of interest within the Companion Published in association with the Newberry Library in Chicago the Companion will reproduce more than 100 images from its world renowned collection **New Scientist** ,2001 Biography ,2003 **Literature of Travel and Exploration: A to F** Jennifer Speake,2003 Containing more than 600 entries this valuable resource presents all aspects of travel writing There are entries on places and routes Afghanistan Black Sea Egypt Gobi Desert Hawaii Himalayas Italy Northwest Passage Samarkand Silk Route Timbuktu writers Isabella Bird Ibn Battuta Bruce Chatwin Gustave Flaubert Mary Kingsley Walter Raleigh Wilfrid Thesiger methods of transport and types of journey balloon camel grand tour hunting and big game expeditions pilgrimage space travel and exploration genres buccaneer narratives guidebooks New World chronicles postcards companies and societies East India Company Royal Geographical Society Society of Dilettanti and issues and themes censorship exile orientalism and tourism For a full list of entries and contributors a generous selection of sample entries and more visit the Literature of Travel and Exploration An Encyclopedia website **Kleio** ,2001 **Book Review Digest** ,1924 **Vitalism in Modern Art, C. 1900-1950** Richard A.
