District Development Plan, 2002-2008: Migori, 2002 **District Development Plan, 2002-2005** Balaka District (Malawi). Assembly, 2002 **Annual Report** Kokusai Kyōryoku Jigyōdan, 2008 **Strategic Plan, Republic of Malawi** Malawi. Department of Nutrition, HIV, and AIDS., 200? **The dragon and the elephant** Gulati, Ashok, Fan, Shenggen, 2007-11-14 China and India are the most extraordinary economic success stories of the developing world Both nations economies have grown dramatically over the past few decades elevating them from two of the world s poorest countries into projected economic superpowers As a result the numbers of Chinese and Indians living in poverty have rapidly fallen and per capita incomes in China and India have quadrupled and doubled respectively This book investigates the reasons for these staggering accomplishments and the lessons that can be applied both to other developing nations and to the problem of poverty that remains in these two countries The contributors pay particular attention to agriculture and the rural economy examining how initial conditions and investments and the prioritization and sequencing of different policies and strategies have led to successes and how the agricultural and rural sectors connect to overall economic expansion They also emphasize the importance of anti poverty programs and safety nets in helping poor people escape poverty The book offers a set of policy and strategic options for future growth and poverty reduction These include setting the right priorities for public spending identifying trade and market reforms building social safety nets for the poorest of the poor and building accountable institutions that can provide public goods and services effectively The book concludes by examining future challenges to China and India s economic development such as the need to ensure growth that is sustainable equitable and environmentally friendly The Dragon and the Elephant offers valuable insights to development specialists anxious to multiply the benefits experienced by two of the greatest economic successes in recent times

Climate, Environmental Hazards and Migration in Bangladesh Max Martin, 2017-07-20 The apocalyptic visions of climate change that are projected in the media often involve extreme weather events disasters and mass migration of poor people This book takes a critical look at this notion drawing on research in Bangladesh a country located at the heart of debates on climate change and migration This book argues that rather than leading to dramatic events climatic and environmental impacts often cause incremental changes in people s habitats and livelihoods making them migrate in search of better places and income With or without climate change climatic and environmental factors can impoverish people and

drive displacement and migration especially in the global South These influences including disasters need not necessarily make people move but instead sometimes trap the poorest and the most vulnerable people in their places exposed to hazards or make them migrate to even riskier places such as crowded and flood prone urban slums This book argues that restrictions placed on people s mobility options could increase their vulnerability and favours proactive migration policies This timely contribution explains the climate hazard migration nexus in an accessible engaging language for students of geography development studies politics and environmental studies as well as humanitarian and development practitioners and policymakers
