Department of Public Information,1990-01-10 Issued annually since 1946 47 the Yearbook is the principal reference work of the United Nations providing a comprehensive one volume account of the Organization s work It includes details of United Nations activities concerning trade industrial development natural resources food science technology social development population environment human settlements children legal questions along with information on the work of each specialized agency in the United Nations family The Yearbook is an indispensable guide to the UN *Reducing Poverty and Investing in People* Victoria Monchuk,2014 For two decades Africa s strong economic growth has paved the way for poverty reduction Nevertheless high chronic poverty levels persist and the gap between income groups in terms of human capital and access to basic services is growing Also poor households are vulnerable to frequent shocks By providing regular reliable support to poor households and helping them invest in productive activities targeted interventions such as safety nets help reduce persistent poverty reverse the trend of increasing inequality and build household resilience Until recently safety nets were implemented only on an ad hoc basis in Africa However in the wake of the global economic crisis policy makers are increasingly viewing safety nets as core instruments for reducing poverty and managing risk Also a momentum toward rationalizing public spending to provide more adequate and targeted support to the poorest is emerging in response to growing evidence that safety nets can successfully reduce poverty and vulnerability and promote inclusive growth This book assesses the status and analyzes the objectives features systems performance and financing of safety nets in 22 African countries It then identifies how governments and donors can strengthen safety net systems and protect and promote poor and vulnerable people Overall the book finds that safety nets are on the rise in Africa and are beginning to evolve from fragmented stand alone programs into integrated systems Social protection programming has started to change from largely emergency food aid programs to regular predictable safety nets including targeted cash transfers and cash for work programs Some countries including Ghana Kenya Rwanda and Tanzania are working toward consolidating their programs into a national system Impact evaluations of safety nets in Africa are also increasingly being undertaken and with recent

research into the productive aspects of cash transfer programs have yielded encouraging evidence that safety nets reduce poverty and vulnerability The timely analysis of safety nets in Africa provides a solid foundation for evidence based policy dialogue and programming As a result of the growing body of evidence that safety nets contribute to inclusive growth African decision makers are now putting safety nets high on their development agendas
