initiated and conducted by an adult with one or more children in educational clinical social contexts they are playful and pleasant but their main objective is other than play e g cognitive learning social learning functional rehabilitation child s observation and assessment psychological support psychotherapy etc This book then contributes to a clear distinction between play and play like activities that hopefully will bring to new developments in play studies ABSTRACTING INDEXING Play development in children with disabilities is covered by the following services Baidu Scholar Bayerische Staatsbibliothek BDS BoD Bowker Book Data CNKI Scholar China National Knowledge Infrastructure Dimensions DOAB Directory of Open Access Books EBSCO Elsevier Scopus Books ExLibris Google Books Google Scholar Naviga ReadCube Semantic Scholar TDOne TDNet WorldCat OCLC X MOL Additionally the proceedings volume is registered and indexed in the Crossref database and accessible on Amazon
