Developments in Applied Spectroscopy, Volume 1 W. D. Ashby, 1962 *Developments in Applied Spectroscopy Volume 1*
W. D. Ashby, 2013-04-17 On May 15 18 1961 the 12th Annual Symposium on Spectroscopy was held in Chicago Over the twelve year history of this meeting it has continually grown and now ranks as one of the major technical meetings in the field of spectroscopy The scope of the program itself represents a balance between research applications and control applications between applied and the more fundamental aspects of spectroscopy Papers are presented each year in the specialty areas of X ray ultraviolet visible infrared Raman EPR and NMR spectroscopy In many instances over the years excellent work has been reported at this symposium and no further publication was made These reports were then essentially lost for further reference It is the purpose of this publication to provide a source of reference for the papers presented at the 12th Annual Symposium This first attempt at publishing a proceedings does not include the entire program Several papers could not be given company clear ance for publication and several more were intended for verbal presentation only and were never written for publication I as Coordinator of the Symposium would like to express my gratitude to the Symposium Committee John Ferraro Elwin Davis Joseph Ziomek John Kapetan L S Gray Jr Russell J Hansen J A Sheinkop L V Azaroff and Carl Moore whose diligence and labor resulted in a truly fine symposium and subsequently made possible this publication
