Developments In Rapid Casting:

Developments in Rapid Casting Graham Tromans, 2004-01-16 Rapid Casting and its various techniques has fast become an indispensable part of modern manufacturing. Developments in rapid casting are the result of shorter lead time demands just as increasingly shorter lead time demands are the result of rapid casting. This cyclical relationship has meant that the exciting developments and evolution of rapid casting techniques is truly enduring. This important publication highlights the most up to date developments in rapid casting from academia and industry alike. Contributions from authoritative authors come together to form this comprehensive collection of discussions and case studies. Advances in Mechanical, Materials and Manufacturing Engineering Amir Khalid, Bukhari Manshoor, Erween Abdul Rahim, Waluyo Adi Siswanto, Kamil Abdullah, 2014-10-31 Selected peer reviewed papers from the 5th International Conference on Mechanical and Manufacturing Engineering 2014 ICME 2014 October 29 30 2014 Bandung Indonesia **New Materials for Next-Generation Commercial Transports** National Research Council, Division on Engineering and Physical Sciences, National Materials Advisory Board, Commission on Engineering and Technical Systems, Committee on New Materials for Advanced Civil Aircraft, 1996-04-15 The major objective of this book was to identify issues related to the introduction of new materials and the effects that advanced materials will have on the durability and technical risk of future civil aircraft throughout their service life. The committee investigated the new materials and structural concepts that are likely to be incorporated into next generation commercial aircraft and the factors influencing application decisions. Based on these predictions the committee attempted to identify the design characterization monitoring and maintenance issues that are critical for the introduction of advanced materials and structural concepts into future aircraft. Advances in Manufacturing II Bartosz Gapiński, Marek Szostak, Vitalii Ivanov, 2019-05-02 This book covers a variety of topics related to machine manufacturing and concerning machine design product assembly technological aspects of production mechatronics and production maintenance. Based on papers presented at the 6th International Scientific Technical Conference MANUFACTURING 2019 held in Poznan Poland on May 19 22 2019 the different chapters reports on cutting edge issues in constructing machine parts mechatronic solutions and modern drives. They include new ideas and technologies for machine cutting and precise processing. Chipless technologies such as founding plastic forming non metal construction materials and composites and additive techniques alike are also analyzed and thoroughly discussed. All in all the book reports on significant scientific contributions in modern manufacturing offering a timely guide for researchers and professionals developing and or using mechanical engineering technologies that have become indispensable for modern manufacturing. *Advances in Additive Manufacturing and Joining* M. S. Shunmugam, M. Kanthababu, 2019-10-16 This volume presents research papers on additive manufacturing popularly known as 3D printing and joining which were presented during the 7th International and 28th All India Manufacturing Technology Design and Research conference 2018 AIMTDR 2018. The contents of this volume

present the latest technological advancements for improving the efficiency accuracy and speed of the additive manufacturing process and in fusion and solid state welding technologies with a variety of technologies including fused deposition modelling poly jet 3D printing weld deposition based technology selective laser melting and important welding technologies being covered This volume will be of interest to academicians researchers and practicing engineers alike Frontiers of Manufacturing and Design Science II Dong Ye Sun,Wen Pei Sung,Ran Chen,2011-10-24 Selected peer reviewed papers from the Second International Conference on Frontiers of Manufacturing and Design Science ICFMD 2011 December 11 13 Taiwan **Comprehensive Materials Processing** ,2014-04-07 Comprehensive Materials Processing Thirteen Volume Set provides students and professionals with a one stop resource consolidating and enhancing the literature of the materials processing and manufacturing universe It provides authoritative analysis of all processes technologies and techniques for converting industrial materials from a raw state into finished parts or products Assisting scientists and engineers in the selection design and use of materials whether in the lab or in industry it matches the adaptive complexity of emergent materials and processing technologies Extensive traditional article level academic discussion of core theories and applications is supplemented by applied case studies and advanced multimedia features Coverage encompasses the general categories of solidification powder deposition and deformation processing and includes discussion on plant and tool design analysis and characterization of processing techniques high temperatures studies and the influence of process scale on component characteristics and behavior Authored and reviewed by world class academic and industrial specialists in each subject field Practical tools such as integrated case studies user defined process schemata and multimedia modeling and functionality Maximizes research efficiency by collating the most important and established information in one place with integrated applets linking to relevant outside sources Modern Castings ,1988 **Precision Casting Via Advanced Simulation and Manufacturing** ,1997 **Development of Rapid Prototype Casting Processor in the Fabrication of a High-performance Thrust Cell** K.
