Devils Virtuosos German Generals At War 1940 1945:

The Devil's Virtuosos David Downing,1978 **The Devil's Virtuosos** ,1977 Beskrivelse af tyske operationer under 2 Verdenskrig og de tyske officerer der var ansvarlige for planlægning og gennemførelse *The Organization and Order of Battle of Militaries in World War II*. Charles D. Pettibone,2012 There are numerous Order of Battle books on the market So what makes this one so special Why should one decide on this particular book Most Order of Battle books usually deal only at the division and corps level of a country's army Most higher commands are not covered This book deals with all the branches of a country's military giving a breakdown of all the major echelons of command from theater down to brigade under each component army group armies corps division and brigade and the equivalent command for the other military branches are included Second it attempts to give an overall command structure of the country's military showing the central headquarters command structure as well as the major components army groups armies corps etc Third most Order of Battle books list the commander and their dates of tenure This one includes those but also lists their next duty assignments or where they went after leaving the post One can literally trace a general officer's career through the upper echelons of command making this series completely different from all the others on the market **Erich von Manstein** Benoît Lemay,2010-07-27 A selection of the Military Book Club An informative and objective biography of a genius commander and a study of his loyalty to the Nazi cause Library Journal To many close students of World War II Erich von Manstein is considered the greatest commander of the war if not the entire twentieth century He devised the plan that conquered France in 1940 and led an infantry corps in that campaign At the head of a panzer corps he reached the gates of Leningrad in 1941 then took command of 11th Army and conquered Sevastopol and the Crimea After destroying another Soviet army in the north he was given command of the ad hoc Army Group Don to retrieve the German calamity at Stalingrad whereupon he launched a counteroffensive that against all odds restored the German front Afterward he commanded Army Group South nearly crushing the Soviets at Kursk and then skillfully resisted their relentless attacks as he traded territory for coherence in the East Though an undoubtedly brilliant military leader whose achievements considering the forces at his disposal rivaled of Patton Rommel MacArthur and Montgomery surprisingly little is known about Manstein himself save for his own memoir and the accolades of his contemporaries In this book we finally have a full portrait of the man including his campaigns and an analysis of what precisely kept a genius like Manstein harnessed to such a dark cause A great military figure but a man who lacked a sharp political sense Manstein was very much representative of the Germano Prussian military caste of his time Though Hitler was uneasy about the influence he'd gained throughout the German Army Manstein ultimately declined to join any clandestine plots against his Führer believing they would simply cause chaos the one thing he abhorred Though he constantly opposed Hitler on operational details he considered it a point of loyalty to simply stand with the German state in whatever form Though not bereft of personal opinions his primary allegiances were first to Deutschland and second to the soldiers under his

command who d been committed against an enemy many times their strength It is thus through Manstein that the attitudes of other high ranking officers who fought during the Second World War particularly on the Eastern Front can be illuminated This book is a well researched convincingly reasoned analysis of a general widely considered one of WWII s great commanders Publishers Weekly Includes photographs [Historical Dictionary of World War II](#) Anne Sharp Wells,2013-12-24 This dictionary covers the complex and costly conflict that began when Germany ruled by Adolf Hitler and the Nazi Party invaded neighboring Poland on 1 September 1939 and concluded when Germany surrendered on 7 9 May 1945 leaving much of the European continent in ruins and its population devastated The war against Germany Italy and the other European Axis members was fought primarily in Europe the Mediterranean the Middle East East and North Africa and the Atlantic Ocean The Axis powers were defeated by the Allies led by the Grand Alliance of Great Britain the United States and the Union of Soviet Socialist Republics The Historical Dictionary of World War II The War against Germany and Italy relates the history of this war through a chronology an introductory essay maps and photos and an extensive bibliography The dictionary section has more than 300 cross referenced entries on the countries and geographical areas involved in the war as well as the nations remaining neutral wartime alliances and conferences significant civilian and military leaders and major ground naval and air operations This book is an excellent access point for students researchers and anyone wanting to know more about World War II **The Era of World War II** Louise A. Arnold-Friend,1979 [Clash of Arms](#) Russell Hart,2001 Russell Hart has put it all together the culture history society politics and ideas that undergirded four separate armies and their combat performance in a single campaign along the coast of Normandy in France from June through September 1944 Clash of Arms is an outstanding example of contemporary military history Arden Bucholz Journal of Modern History Russell Hart has written a masterful account of the effectiveness of the Anglo Canadian American and German forces not only in Normandy in 1944 but also throughout the interwar and early war periods Major James P Gates Air Space Power Journal As a result of Hart s work historians are a step closer on their long journey to understand how armies adapt and innovate both in peacetime and in war Steve R Waddell Army History This work is the most comprehensive academically grounded and logical evaluation of the relative combat capabilities of the four armies in Normandy to date Every page contains information useful to professionals Major Robert Bateman ARMOR Hart understands the complexity of his subject and skillfully pieces together the institutional development of the military forces with the political economic social and cultural values of the societies that produced them The result is an outstanding comparative study that blends the so called new military history with traditional operational history This is one of the most original and important studies of the war to appear recently Choice Hart demonstrates massive research and a clear forthright style He does not hesitate to analyze problems and to describe both successful solutions and failures His book is a masterly presentation David Eggenberger History Review of New Books The scholarship underlying this work is absolutely astonishing Bruce Gudmundsson A seminal volume Dennis Showalter Clash of

Arms examines how the Western Allies learned on the battlefield to defeat the Nazi war machine Beginning with an investigation of the interwar neglect that left the Allied militaries incapable of defeating Nazi aggression at the start of World War II Hart examines the wartime paths the Allies took toward improved military effectiveness He also explores the continuous German adaptation that prolonged the war and increased the price of eventual Allied victory Central to his comparative study is the complex interplay of personalities military culture and wartime realities that determined how accurately the combatants learned the lessons of war and how effectively they enhanced their battle capabilities CONTENTS Foreword D Showalter Introduction PREPARATION 1919 1944 The Interwar Period The U S 1941 1944 The Leviathan Awakens Britain 1939 1944 Toils and Troubles Canada 1939 1944 The Politics of Neglect Germany 1939 1944 Blitzkrieg Unleashed NORMANDY 1944 A Campaign Overview The U S Leviathan Triumphant Britain Montgomery's Best Batsmen Fail Canada Learning the Hard Way Germany Niedergang of the Westheer CONCLUSION **Special Bibliographic Series** US Army Military History Research Collection,1978 *Special Bibliography*,1977 **The Devil's Virtuosos** David Downing,1977 **Magill's Guide to Military History: Jap-Pel** John Powell,2001 Salem Press's five volume Magill's Guide to Military History presents a survey of the wars battles peoples groups and civilizations that played an important role in worldwide military history from ancient times to the twenty first century In addition to comprehensive coverage of Western military history the encyclopedia examines the major military events personages and civilizations of the entire world from the beginning of military history Includes Time Line of Wars and Battles Wars and Battles by Geographical Area Military Leaders by Geographic Area and List of Entries by Category **Political Leaders and Military Figures of the Second World War** Steven D. MacDonald,1985 On December 16 1944 the vanguard of three German armies totaling half a million men attacked U S forces in the Ardennes region of Belgium and Luxembourg achieving what had been considered impossible total surprise In the most abysmal failure of battlefield intelligence in the history of the U S Army 600 000 American soldiers found themselves facing Hitler's last desperate effort of the war The brutal confrontation that ensued became known as the Battle of the Bulge the greatest battle ever fought by the U S Army a triumph of American ingenuity and dedication over an egregious failure in strategic intelligence A Time for Trumpets is the definitive account of this

dramatic victory told by one of America's most respected military historians who was also an eyewitness MacDonald commanded a rifle company in the Battle of the Bulge His account of this unique battle is exhaustively researched honestly recounted and movingly authentic in its depiction of hand to hand combat Mingling firsthand experience with the insights of a distinguished historian MacDonald places this profound human drama unforgettably on the landscape of history Copyright Libri GmbH All rights reserved National Union Catalog Library of Congress,1979 Includes entries for maps and atlases
