Dialectic And Its Place In The Development Of Medieval Logic:

Dialectic and Its Place in the Development of Medieval Logic Eleonore Stump, 1989 **The Philosophy of William of Ockham** Armand Augustine Maurer, 1999 The Art of Dialectic Between Dialogue and Rhetoric Marta Spranzi, 2011 This book reconstructs the tradition of dialectic from Aristotle's *Topics* its founding text up to its renaissance in 16th century Italy and focuses on the role of dialectic in the production of knowledge Aristotle defines dialectic as a structured exchange of questions and answers and thus links it to dialogue and disputation while Cicero develops a mildly skeptical version of dialectic identifies it with reasoning in *utramque partem* and connects it closely to rhetoric These two interpretations constitute the backbone of the living tradition of dialectic and are variously developed in the Renaissance against the Medieval background The book scrutinizes three separate contexts in which these developments occur Rudolph Agricola's attempt to develop a new dialectic in close connection with rhetoric Agostino Nifo's thoroughly Aristotelian approach and its use of the newly translated commentaries of Alexander of Aphrodisias and Averroes and Carlo Sigonio's literary theory of the dialogue form which is centered around Aristotle's *Topics* Today Aristotelian dialectic enjoys a new life within argumentation theory the final chapter of the book briefly revisits these contemporary developments and draws some general epistemological conclusions linking the tradition of dialectic to a fallibilist view of knowledge The Dialectical Forge Walter Edward Young, 2016-12-13 The *Dialectical Forge* identifies dialectical disputation *jadal* as a primary formative dynamic in the evolution of pre-modern Islamic legal systems promoting dialectic from relative obscurity to a more appropriate position at the forefront of Islamic legal studies The author introduces and develops a dialectics based analytical method for the study of pre-modern Islamic legal argumentation examines parallels and divergences between Aristotelian dialectic and early juridical *jadal* theory and proposes a multi-component paradigm the *Dialectical Forge Model* to account for the power of *jadal* in shaping Islamic law and legal theory In addition to overviews of current evolutionary narratives for Islamic legal theory and dialectic and expositions on key texts this work shines an analytical light upon the considerably sophisticated proto-system of juridical dialectical teaching and practice evident in Islam's second century several generations before the first full system treatises of legal and dialectical theory were composed This proto-system is revealed from analyses of dialectical sequences in the 2nd-8th century *Kitāb Ikhtilāf al-Irqiyyān* the subject text through a lens molded from 5th-11th century *jadal* theory treatises the lens texts Specific features thus uncovered inform the elaboration of a *Dialectical Forge Model* whose more general components and functions are explored in closing chapters It Could Have Been Otherwise Hester Gelber, 2004-06-01 This volume deals with the Dominicans at Oxford University from 1300-1350 It describes the history of the Oxford friary who the friars were who were there how they were chosen and the intellectual life they created It develops the idea of the friary as a conversational community The theology of four friars is dealt with in depth Hugh of Lawton Arnold of Strelley William Crathorn and Robert Holcot relying often on unedited manuscript sources The

focus is on their response to the modal theory of Duns Scotus and Ockham Discussions of necessity contingency divine foreknowledge a deceiver God invincible ignorance and God s absolute power are highly ingenious Several develop an obligational theology based on the technique of obligational debate *Boethius's In Ciceronis Topica* Anicius Manlius Severinus Boethius, Boethius, 2004 In *Ciceronis Topica* and *De topicis differentiis* are Boethius s two treatises on Topics loci Together these two works present Boethius s theory of the art of discovering arguments a theory that was highly influential in the history of medieval logic Eleonore Stump here presents the first English language translation of *In Ciceronis Topica* Boethius s extended commentary on Cicero s *Topica* To supplement her translation Professor Stump has provided an introduction that supplies essential information about *In Ciceronis Topica* Boethius s life and the tradition of dialectic her detailed notes explore the many philosophical problems in Boethius s text A significant contribution to the history of Western intellectual life in its own right Boethius s *In Ciceronis Topica* makes an excellent companion to Professor Stump s earlier work Boethius s *De topicis differentiis* also available from Cornell **Studies in Idealism** Nicholas Rescher, 2005 A set of studies of various ideas and theories that play a key role in contemporary idealism and are important for the pragmatic idealism that Nicholas Rescher long was developing **The Philosophical Review** Jacob Gould Schurman, James Edwin Creighton, Frank Thilly, Gustavus Watts Cunningham, 1928 An international journal of general philosophy **Studies and Texts - Pontifical Institute of Mediaeval Studies**, 1955 [Historical Foundations of Informal Logic](#) Douglas N.
