postmodernism as well as an evaluation of his interventions in Irish Studies Each of the chapters in this important intervention in current theoretical debates offers accessible contextualization of the key issues and provides detailed analyses of Eagleton s literary criticism Alderson shows that the complex relations between nature culture and ideology body subjectivity and authority are at the heart of Eagleton s ethical and political concerns He goes on to demonstrate that these relations inform the theorist s critical examinations of such literary works as Wuthering Heights and The Merchant of Venice and his treatment of W B Yeats and Oscar Wilde

Browning's Later Poetry, 1871-1889 Clyde de L. Ryals, 2019-06-30
 Maintaining that Browning s later work has been underestimated Professor Ryals gives close sophisticated readings of the individual poems covering each of the published volumes from Balaustion s Adventure through Asolando He emphasizes the overall structure of a poem and the manner in which themes and ideas are presented The later Browning is portrayed as a poet intent upon discovering forms that would give shape and meaning to thought and experience *Guide to the Year's Work in Victorian Poetry and Prose* Richard Clark Tobias, 1974
