Dialectics and Revolution David H. DeGroot,1978 The Cultural Dialectics of Knowledge and Desire Charles William Nuckolls,1996 Why is culture a problem that can never be solved Charles W Nuckolls poses this question to his readers and offers a genuinely synthetic approach to culture that is both cognitive and psychoanalytic He develops a theory of cultural dialectics based on the concept of paradox in which he shows how ambivalence and conflicts and the desire to resolve them are at the heart of all cultural knowledge systems Nuckolls combines and synthesizes the ideas of Max Weber and Sigmund Freud major influences in the cognitive and psychoanalytic paradigms and develops the concept basic to both the dialectic He recovers the legacy of Gregory Bateson who provided the foundation for a theory of paradox in culture With his integrated theory Nuckolls explains the conflicts of knowledge and desire in a South Asian knowledge system in particular the religious mythology and divinatory system of the Jalaris a Telugu speaking fishing caste on the southeastern coast of India This provocative book allows us to rethink the relationship between the currently competing discourses in

psychological and cultural anthropology and at the same time offers a general synthetic theory of cultural dynamics
