Dialogue And Tradition:

The Dialogue of Cultural Traditions William Sweet, 2008

Dialogue in Early South Asian Religions Dr Brian Black, Professor Laurie Patton, 2015-07-28 Dialogue between characters is an important feature of South Asian religious literature entire narratives are often presented as a dialogue between two or more individuals or the narrative or discourse is presented as a series of embedded conversations from different times and places Including some of the most established scholars of South Asian religious texts this book examines the use of dialogue in early South Asian texts with an interdisciplinary approach that crosses traditional boundaries between religious traditions The contributors shed new light on the cultural ideas and practices within religious traditions as well as presenting an understanding of a range of dynamics from hostile and competitive to engaged and collaborative This book is the first to explore the literary dimensions of dialogue in South Asian religious sources helping to reframe the study of other literary traditions around the world

The Rebirth of Dialogue James P. Zappen, 2004-06 This book explores Bakhtin's understanding of Socratic dialogue and the notion that dialogue is not simply a way of persuading others to accept our ideas but a way of holding ourselves and others accountable for all of our thoughts words and actions In supporting this premise Bakhtin challenges the traditions of argument and persuasion handed down from Plato and Aristotle and he offers as an alternative a dialogical rhetoric that restructures the traditional relationship between speakers and listeners writers and readers as a mutual testing contesting and creating of ideas The author suggests that Bakhtin's dialogical rhetoric is not restricted to oral discourse but is possible in any medium including written graphic and digital

Dialogues of Confucius Confucius, 2026-03-10 The first complete English translation of the Dialogues a rediscovered companion to the Analects Labeled a forgery and ignored for centuries the Dialogues of Confucius was nevertheless preserved and passed down through the generations purportedly a companion to the Analects Recent archaeological finds and renewed analysis now suggest that the Dialogues can be accepted as authentic and that it accurately represents the thinking of Confucius on a wide array of topics In this book Brian Bruya and Wenwen Li

offer the first complete translation of the text into English as well as a detailed introduction discussing Confucian philosophy the history of the text and the debates around its authenticity This new translation shows that the Dialogues deserves a rightful place next to the Analects In the Dialogues as in the Analects Confucius converses with his students and local potentates The topics range from education to social norms to cosmology and from cultivating individual virtues to instituting a meritocratic government As Bruya and Li argue the main value of the Dialogues lies in its many philosophical clarifications and elaborations At its core it offers a valuable resource for understanding Confucius his interactions with his students and his philosophy Each chapter includes both the original Chinese text and the English translation The introduction includes a philosophical lexicon and a 600 entry glossary at the end of the book provides context from the time of Confucius enabling readers to understand how Confucius viewed his place in the world

Tradition in Dialogue Peter-Ben Smit,2012 Tradition is a highly contested notion in the Christian church especially when it comes to ecumenical encounters and dialogues In today s Anglican churches the notion of tradition is prominent in many debates concerning ecclesial differences Often ways have been found to reconcile seemingly different understandings of tradition and its articulation in the present In this profound studies prof Smit shows how this has been achieved in the international bilateral dialogues of the Anglican Communion ranging from conversations with the Baptist World Alliance to dialogues with the Roman Catholic and Orthodox Churches

Creating Organizational Value through Dialogical Leadership Rens van Loon,2017-07-27 This book demonstrates Dialogical

Leadership which is the workplace application of the Dialogical Self Theory first developed by Dutch psychologist Hubert Hermans in the 1990s It encourages scientists and science practitioners interested in leadership issues to discuss the power of dialogue in solving workplace culture problems Van Loon s work extends the concept of Dialogical Self Theory to the leadership of organizations drawing on social constructionism by the American psychologist Ken Gergen and the leadership framework of British academic Keith Grint This book explicitly links the health of organizations to the psychological and emotional health of those who lead them concluding with the factors of teamwork and motivation Dialogical Leadership jettisons the idea that organizations are run by superheroes presenting a more realistic picture of the workplace This is the first book to isolate generative dialogue as the key mechanism for successful change and transformation programs in organizations It rejects the idea that successful organizations are rational systems conforming to scripts laid down by leaders and it places dialogue and co creation reciprocal exchange at the heart of successful change programs It starts from the kinds of questions leaders ask themselves their interior dialogue and the quality of their interactions with others their external dialogues which can as shown in this book be the difference between success and failure

Overcoming America / America Overcoming Stephen C. Rowe,2013-03-13 In *Overcoming America* America Overcoming Stephen Rowe shows how the moral disease and political paralysis that plague America are symptomatic of the fact that America herself has been overtaken by the modern values which she exported to the rest of the world He points to a way out of this current and potentially fatal malaise join other societies which are also struggling to move beyond the modern and consciously reappropriate those elements of tradition which have to do with cultivation of the mature human being To avoid fundamentalism Rowe discusses how this reappropriation must be undertaken in dialogue with those who also have come to recognize the unsustainable quality of the modern life and who have been able to live beyond the nihilistic wish to tear it down This book supports the call for an emerging global ethic and spirituality providing resources of articulation and interpretation that allow for an ongoing dialogue between traditional and modern values both worthy and problematic in their own ways through which reliable policy and healthy living become possible
