Education for Interreligious Dialogue Patrick Chinedu Mbarah,2020-09-29 This publication representing substantively the doctoral dissertation of Rev Fr Patrick Chinedu Mbarah examines the implication of education for interreligious dialogue He believes that education has a paramount role to play in advancing interreligious dialogue Focusing on Archdiocese of Owerri Nigeria he evaluates the situation at hand in the light of the relationship existing among the different religions Islam Christianity African Traditional Religion and some of the New Religious Movements He insists that education will help in the promotion and progress of dialogue among the different religion frontiers The book argues that education for interreligious dialogue is not optional instead it is a necessity and an obligation in the Nigerian context The book highlights the importance of catholic education and how the various channels existing in the archdiocese of Owerri could be used as veritable means of formation of the people to understand the teaching of the Church on interreligious relations with people of other faith traditions Furthermore the book presents a concrete proposal of an Interreligious Dialogue Directory for the application of principles and norms for the education of people for a mutual coexistence with followers of other religious traditions in Owerri Archdiocese Nigeria It is meant for the education of people at different levels pastoral agents catechists priests religious and lay faithful It also addresses schools especially Secondary and Tertiary institutions **Asian Theology on the Way** Peniel Rajkumar,2015-07-01 In this exciting volume Peniel Rajkumar has assembled the work of nearly twenty prominent Asian theologians making their writings accessible to the introductory level student The result is an ideal introduction to the wealth of Asian theologies and the major questions they raise It is ecumenical in scope with emphasis on the contemporary concerns within Asian theology and some attention to the development of these theologies Regional and subject specialists capture the ongoing conversation incorporating new emphases and trends thus making the book a fresh introduction to Christian theology in Asia *Asian Catholic Women* Thao Nguyen,2019-11-20 Studying the various movements among women in the Catholic Church in Asia the author argues that the preexisting male dominated church rooted in the colonial era is now being challenged to recentralize itself and exercises an inclusive and participatory ecclesiology in which women should become fuller members of the church and participate in the decision making processes of the church For only when the church in Asia discovers and recognizes the richness of women s potential leadership charisma and vision will it be able to witness to the Gospel values and fulfill its vision of mission in Asia The author shows that Asian Catholic women have played and continue to play a crucial role in designing and carrying out multiple areas of the church s ministries that men failed to do Furthermore the author shows that through the interactions and dialogue with Asian bishops in recent decades Asian Catholic women have gradually influenced the Asian bishops consciousness of women
