Saunders Arthur Schopenhauer,1899 Religion: a Dialogue Arthur Schopenhauer,1915 **Dialogues on Metaphysics and on Religion** Nicolas Malebranche,1923 Dialogues Concerning Natural Religion David Hume,2019-03-28 It has been remarked by HERMIPPUS that though the ancient philosophers conveyed most of their instruction in the form of dialogue this method of composition has been little practised in later ages and has seldom succeeded in the hands of those who have attempted it Accurate and regular argument indeed such as is now expected of philosophical inquirers naturally throws a man into the methodical and didactic manner where he can immediately without preparation explain the point at which he aims and thence proceed without interruption to deduce the proofs on which it is established To deliver a SYSTEM in conversation scarcely appears natural and while the dialogue writer desires by departing from the direct style of composition to give a freer air to his performance and avoid the appearance of Author and Reader he is apt to run into a worse inconvenience and convey the image of Pedagogue and Pupil Or if he carries on the dispute in the natural spirit of good company by throwing in

a variety of topics and preserving a proper balance among the speakers he often loses so much time in preparations and transitions that the reader will scarcely think himself compensated by all the graces of dialogue for the order brevity and precision which are sacrificed to them There are some subjects however to which dialogue writing is peculiarly adapted and where it is still preferable to the direct and simple method of composition

Concerning Natural Religion is a philosophical work by the Scottish philosopher David Hume. Through dialogue three philosophers named Demea, Philo, and Cleanthes debate the nature of God's existence. Whether or not these names reference specific philosophers ancient or otherwise remains a topic of scholarly dispute. While all three agree that a god exists, they differ sharply in opinion on God's nature or attributes and how or if humankind can come to knowledge of a deity. In the Dialogues, Hume's characters debate a number of arguments for the existence of God and arguments whose proponents believe through which we may come to know the nature of God. Such topics debated include the argument from design for which Hume uses a house and whether there is more suffering or good in the world, argument from evil. Hume started writing the Dialogues in 1750 but did not complete them until 1776, shortly before his death. They are based partly on Cicero's *De Natura Deorum*. The Dialogues were published posthumously in 1779, originally with neither the author's nor the publisher's name.
