The Practitioner's handbook of treatment John Milner Fothergill,1897 *The Practitioner's Handbook of Treatment; Or, The "Principles of Therapeutics."*

John Milner Fothergill,1876 **Learning and Mobilising for Community Development** Lynda Shevellar,2016-04-22

Learning and Mobilising for Community Development introduces the reader to different ways of thinking about and organising community based education and training within different settings. Stories from the global south and north illustrate approaches to collective learning and collective action. The book provides not only an insight into the how to of community based education and training but through a range of applications demonstrates the often unspoken shadow side of the developmental work we undertake. The first section of the book outlines the key elements that underpin effective community based education and training. It then locates community based education and training within a broader pedagogical project by tracing the tradition of transformative learning and education. The second half of the book focuses on stories and practice distilling the application of theory and frameworks. The practitioners within this book emerge from unique and challenging contexts. From civil resistance in West Papua and youth empowerment in South Africa to financial freedom in Australia these diverse experiences speak to a common quest for social change and justice.

The Learning and Development Handbook Michelle Parry-Slater, 2021-02-03. The skills needed in today's business world are not the same as they were in the past. Therefore upskilling, reskilling and developing staff has never been more important. However, classroom training isn't the best way to achieve this with employees forgetting more than 70% of what they've been taught within just one day. Learning outside the workplace is social, digital and immediate and companies need to embrace this to achieve the productivity, performance and revenue benefits that come from effective learning. The Learning and Development Handbook is a practical guide for L D professionals wanting to move away from traditional classroom teaching but not sure where to start. Full of practical tips and advice, this is urgent reading for anyone in the learning profession. The Learning and Development Handbook includes advice on how to embed social and digital learning, make the most of blended learning, adopt brain friendly learning and design more effective learning content for improved employee engagement and performance. This book also provides guidance on how to identify learning needs in an organization, gather evidence to engage stakeholders and align L D strategy with overall business strategy. There is also expert guidance on how to evaluate and measure the effectiveness of learning, where to find the data needed to support learning activity. Written by an L D practitioner for L D practitioners, this book is packed full of tips, hints, tools and models that can be used to improve both employee and overall business performance in the immediate, middle term and long term future.

A Practitioner's Handbook of Materia Medica and Therapeutics Thomas Stewart Blair, 1907

Capacity Development in Practice Alan Fowler, Jan Ubels, 2010-09-23. The international development community invests billions of dollars to improve organisational capacity. But real life practice is poorly understood and undervalued as a distinct professional domain. Written by practitioners, this innovative publication is designed to make capacity development more professional and increasingly effective in achieving development goals. Practical illustrations draw on experiences from the civic government and private sectors. A central theme is to understand capacity as more than something internal to organisations. This book shows how capacity also stems from connections.

between different types of actor and the levels in society at which they operate The content is crafted for a broad audience of practitioners in capacity development consultants managers front line workers trainers facilitators leaders advisors programme staff activists and funding agencies Published with SNV
