The Political Economy of the World Trading System Bernard M. Hoekman, M. M. Kosteci, 1995 Understanding the reach and relevance of the organization is therefore important and requires an interdisciplinary approach Few countries allow unfettered market forces to determine the pattern and structure of trade and investment Instead governments develop policy in response to domestic political forces taking into account likely reactions by trading partners In discussing the WTO the authors take a political economy based approach that can explain these fundamental aspects of the real world

Selected Texts of Legal Instruments in International Environmental Law United Nations Environment Programme, 2005 Each of our actions each of our decisions has a direct link to whether the world as we know it today will survive or succumb during the lifetime of our children Success in combating environmental degradation is dependent on the full participation of all actors in society One of the major challenges that legal stakeholders in developing countries and countries with economies in transition face is getting access to relevant information and material on environmental law This publication is designed to meet that demand and serve as a source of reference of basic documents on international environmental law Publishing Agency United Nations Environment Programme UNEP
