Dialectic Of Nihilism Post Structuralism And Law:

Dialectic of Nihilism Gillian Rose, 1991-01-08 This book fundamentally challenges the radical credentials of post structuralism Though Derrida Foucault and Deleuze claim to have deconstructed metaphysics their work has much in common with previous attempts to end the metaphysical tradition from Kant to Nietzsche and Heidegger and by sociology in general Gillian Rose shows that this anti metaphysical writing always appears in historically specific jurisprudential terms which themselves found and recapitulate metaphysical categories She reconsiders post structuralism in this light and assesses the relationship between deconstruction and the earlier structuralism of Saussure and Levi Strauss She argues in conclusion that the choice between post structuralist nihilism and Hegelian and Marxist dialectic is spurious *Jurisdiction in Deleuze: The Expression and Representation of Law* Edward Mussawir, 2011-03-03 Jurisdiction in Deleuze The Expression and Representation of Law pursues an emerging interest in the conceptual thematic of jurisdiction within legal studies as it maintains that an adequate understanding of the power of law requires an attention not just to law's formal aspects but to its technology its institution and its instrumentality not just to the representation of law but to its expression **Hegel and the Tradition** Henry Siltan Harris, 1997-01-01 Georg Wilhelm Friedrich Hegel 1770 1831 is considered a philosopher of the Tradition both in the sense that his work is rooted in the political artistic religious and philosophical traditions of European culture and in the sense that he takes up the notion of tradition as an object of philosophical investigation This collection examines Hegel's philosophy as it bears on the meaning and relevance of tradition historical legal aesthetic religious and philosophical The thirteen original essays draw upon and celebrate the work of H S Harris who is considered by many to be the most influential interpreter of Hegel in the English speaking world The collection as a whole examines Hegel's rich and nuanced relation to his own traditions including his creative reworking of the legacies of Greece Rome Christianity the Middle Ages early modernity and his immediate predecessors It also shows how Hegel's thought has direct relevance for us today as we seek to understand ourselves in relation to our inherited traditions The volume concludes with an afterword by H S Harris and a comprehensive bibliography of Harris's published works This important anthology represents the first rigorous and systematic effort to apply Harris's seminal and innovative style of Hegel scholarship to a wide variety of philosophical and historical issues It functions both as a study of Hegel's philosophy and as a commentary on Harris's vast contribution to Hegel scholarship *Postmodern Philosophy and Law* Douglas E. Litowitz, 1997 The author presents a two tiered analysis that views postmodern legal thought as both a collective intellectual movement and as the work of particular theorists notably Friedrich Nietzsche Michel Foucault Jacques Derrida Francois Lyotard and Richard Rorty He concludes that even though postmodern thought does not give rise to a normative theory of right that can be used as a framework for deciding cases it can focus attention on genealogy and discourse and can empower those who have been denied a voice in the legal system Annotation copyrighted by Book News Inc Portland OR Courts and Diversity, 2024-03-04 The

Constitutional Court of Indonesia functions in one of the most diverse societies in the world It is required to resolve disputes within a kaleidoscope of diversity and plurality with flexibility pragmatism asymmetry and wisdom Whilst national minimum norms are important for nation building recognition of local customs diversities and indigenous systems are equally important to protect the territorial integrity of Indonesia and ensure local peace and stability Responding to demands of religious plurality customary lands rights traditional voting systems decentralisation to regions and local governments and responding to diversity of community life requires extraordinary skill insight and flexibility This book gives insight into twenty years of jurisprudence and places it in an international comparison Legislations Geoffrey Bennington,1994-05-17 Written by Jacques Derrida s leading English language translator and collaborator this invigorating and intelligent volume displays the continuing power and versatility of deconstruction presenting it as the most important intellectual movement of our time Geoffrey Bennington develops a devastating critique of many attempts to clarify or criticize deconstructive thought and elaborates its potential through original readings of amongst others Rousseau Kant Hegel Freud De Man and Lyotard While he is principally concerned with a defence of deconstruction in fields where it has long since demonstrated its critical prowess Bennington also emphasizes its political dimension Deconstruction is a political thinking he argues because it entails an irreducible opening to alterity if only in the form of reading and this opening where the other always might arrive as an event on the frontier of my experience is a place for legislation **Misrecognitions** Joshua B. Davis,2018-11-02 This collection brings together prominent thinkers from numerous disciplines to address the legacy of Gillian Rose for political theology today Rose s work is notorious for its eclectic range difficult style and iconoclastic defiance of the conventions of postmodern critical theory The theologians religious scholars ethicists and theorists in this collection discuss Rose s relationship to such topics as the Frankfurt School social theory feminism literature law Hegel Kant and psychoanalysis They situate her work within the wider context of political theology as it is understood in religious studies and continental philosophy Though attentive to the theoretical issues raised by Rose s work these essays are also engage the role that work may play in political action today examining issues such as refugee immigration in Europe the rise of nationalism and anticapitalist political organizing The collection is a vital contribution to the rising body of literature on Rose and her importance to political philosophy ethics and theology but it will also serve as an important orienting guide for readers new to Rose s work and its demanding style Critical Theory in the Twenty-First Century Darrow Schechter,2013-08-29 Critical Theory in the Twenty First Century provides a thorough overview of critical theory looking at its history and shortfalls First the book explains the developments from the Frankfurt School and from more recent schools of thought including Derrida Deleuze deconstruction and post structuralism Then it looks at how critical theory has not kept pace with the changes and conflicts brought on by the post Cold War world and globalization and how its deficits can be addressed For the author more than ever critical theory needs to synthesize theoretical perspective and empirical research It also needs to be reconfigured

Literature, Philosophy, Nihilism Shane Weller, 2008-09-11 This book charts the history of the concept of nihilism in some of the most important philosophers and literary theorists of the modern and postmodern periods including Wyndham Lewis Heidegger Adorno Blanchot Derrida and Vattimo Focusing in particular on the ways in which each of these thinkers produces a theory of the literary as the privileged form of resistance to nihilism Weller offers the first in depth analysis of nihilism s key role in the thinking of the aesthetic since Nietzsche The Textual Dimensions of Post-structuralist Thought Anne Kathleen Reilly, 2001 *Revolutions in Law and Legal Thought* Zenon Bankowski, 1991 *Theology and Difference* Walter James Lowe, 1993 provocative and rewarding Religious Studies Review a tour de force Theological Studies Theology and Difference reconceives the options confronting modern theology and investigates the disputed questions that underlie it Pressing beyond the ready made enlightenment offered by the subject object framework Walter Lowe uncovers a number of remarkable convergences between the contemporary philosopher Jacques Derrida and the early twentieth century theologian Karl Barth *Human Rights and the Limits of Critical Reason* Rolando Gaete, 1993 The rationalization of power has been an enduring feature of Modernity assigning to human rights the task of subjecting the excesses of power to the scrutiny of critical reason Gaete examines this task in the wake of the crisis of modernity when the belief that man can draw principles out of his own ground has lost its authority and when the very possibility of an enlightened disinterested Reason is being questioned The aim of the book is not to offer another critique of rights but to investigate how both rights and critiques are transformed by the rhetoric of power The author traces the discourse of judicial criticism as a series of rhetorical operations bringing to light the paradoxes antinomies and truth games that permeate the field of human rights He interrogates the discourse of modern humanism and investigates how its claims to being the law of the law and the metaphysics of the modern State shape the bond between State and citizen Gaete carries his argument across the fields of post Nietzschean philosophy anglo american jurisprudence political science cultural and legal studies opening new ground for analyses of the rhetoric of rights BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
