Dialectical Criticism And Renaissance Literature:

Dialectical Criticism and Renaissance Literature Michael McCanles, Michael Mac Canles, 1975 **Dialectical Critics and Renaissance Literature**, 1975 *The Ludic Self in Seventeenth-Century English Literature* Anna K. Nardo, 1991-09-03 This book argues that play offered Hamlet John Donne George Herbert Andrew Marvell Robert Burton and Sir Thomas Browne a way to live within the contradictions and conflicts of late Renaissance life by providing a new stance for the self Grounding its argument in recent theories of play and in a historical analysis that sees the seventeenth century as a point of crisis in the formation of the western self the author demonstrates how play helped mediate this crisis and how central texts of the period enact this mediation **Julius Caesar: A Critical Reader** Andrew James Hartley, 2016-10-20 This volume offers a practical accessible and thought provoking guide to this Roman tragedy surveying its major themes and critical reception It also provides a detailed and up to date history of the play s performance beginning with its earliest known staging in 1599 including an analysis of the 2013 film *Caesar Must Die* starring Italian inmates and an assessment of why the play is now coming back into vogue on stage Moving through to four new critical essays it opens up cutting edge perspectives on the work and finishes with a guide to pedagogical approaches by the experienced teacher and leading academic Jeremy Lopez Detailing web based and production related resources and including an annotated bibliography of critical works the guide will equip teachers and facilitate students understanding of this challenging play [The Variorum Edition of the Poetry of John Donne, Volume 7, Part 2](#) John Donne, 2021-01-05 Based on an exhaustive study of the manuscripts and printed editions in which these poems have appeared the eighth in the series of The Variorum Edition of the Poetry of John Donne presents newly edited critical texts of thirteen Divine Poems and details the genealogical history of each poem accompanied by a thorough prose discussion Arranged chronologically within sections the material is organized under the following headings Dates and Circumstances General Commentary Genre Language Versification and Style the Poet Persona and Themes The volume also offers a comprehensive digest of general and topical commentary on the Divine Poems from Donne s time through 2012 *Encyclopedia of Contemporary Literary Theory* Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second

section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture

The Variorum Edition of the Poetry of John Donne, Volume 7, Part 1 John Donne, Gary A. Stringer, Paul A. Parrish, 2005-12-01 Praise for previous volumes This variorum edition will be the basis of all future Donne scholarship Chronique This is the 4th volume of The Variorum Edition of the Poetry of John Donne to appear This volume presents a newly edited critical text of the Holy Sonnets and a comprehensive digest of the critical scholarly commentary on them from Donne's time through 1995 The editors identify and print both an earlier and a revised authorial sequence of sonnets as well as presenting the scribal collection which contains unique authorial versions of several of the sonnets inscribed by Donne's friend Rowland Woodward in the Westmoreland manuscript

Radical Spenser Richard Chamberlain, 2019-06-01 This book provides a radical reading of Edmund Spenser and argues for a re-orientation in Renaissance criticism It begins by critiquing the new historicist hegemony in Spenser studies and through a series of detailed readings proposes alternative strategies for interpreting the texts of this pivotal Renaissance author which include a politicised new aestheticism eco criticism and pastoral theory Unlike most non new historicist studies Radical Spenser argues that Spenser's texts demand a reading at once political and sensitive to aesthetic surprise Following a polemical Introduction which establishes Spenser's centrality to key problems in contemporary Renaissance studies Richard Chamberlain shows that William Empson's ideas about pastoral are vital for an understanding of Spenser and early modern literature The following chapters discuss Spenser's use in The Shepheardes Calender of a distinctively pastoral logic to problematise the relationship between literature and criticism the ways in which this method informs The Faerie Queene the approach in the central books of the epic to textual and state authority and the final books exploration of political experience Finally by demonstrating the complexity of the critically neglected prose treatise A View of the State of Ireland the book offers an eco critical perspective on Spenser's place in the natural and cultural environments of sixteenth century Ireland

Key Features Theoretical intervention encouraging debate and analysis in Renaissance studies Close analysis of key passages offers a new understanding of how Spenser's writing works Broad coverage including readings of Spenser's major poems and his prose dialogue on Ireland

Jonsonian Discriminations Michael McCauley, 1992 At the heart of all Ben Jonson's nondramatic poetry argues Michael McCauley lies the concept of true nobility Jonson sought to transform the inherited aristocracy of England into an aristocracy of humanist virtue in which he could claim a place through his achievement of true nobility by the merits of his own intellectual labours In this survey of all Jonson

s non dramatic poetry McCandles identifies a range of dialectical and contrastive forms through which this concern was rendered poetically He analyses the contrastive forms in discussions of Jonson s prosody his use of homonymy and synonymy and of metaphor He coins the term contrastivity to encompass the play of semantic choices directed by Jonson s use of suprasegmentals at the local level of poetic technique and the reader s process of reading wherein he or she confirms the validity of a poem s statements by recreating the process of selection rejection that went into its creation Thematically McCandles suggests that the vera nobilitas argument is in fact four distinct arguments in various ways mutually contradictory collectively both supporting and subverting aristocratic and monarchical hierarchies Thus he finds Jonson constrained to employ this argument in addressing aristocratic friends patrons and the monarch himself with careful diplomacy in order to negate the subversive dimensions of his own advice and praise Employing the resources generated by the theoretical analysis of contrastivity in the first chapter McCandles demonstrates the considerable complexity of Jonson s poetry generally underestimated in current scholarship

Copyright Office,1977 **Objectivity in the Making** Julie Robin Solomon,1998 In Objectivity in the Making Julie Robin Solomon describes how disinterestedness became a dominant principle of intellectual modernity by examining Bacon s notion of scientific self distancing against the background of early modern political ideology socioeconomic behavior and traditions of learning Solomon places Bacon between two cultures Jacobean monarchical mercantilism and the self distancing strategies of early seventeenth century traders and travelers She shows that by virtue of his prominent political position within the Jacobean court familiarity with prevailing commercial practices and humanistic learning he made signal contributions to natural philosophy While arguing how much the rise of scientific objectivity owed to sociohistorical circumstances Solomon nonetheless challenges the single minded reliance upon the explanatory power of social construction theory within the context of literary and cultural studies of science
