Paternity as Function Vassilis Saroglou, 2021-09-13 Faced with the contemporary proliferation of a religion of emotional communities and the multiplication of gurus spiritual directors and masters the psychologist of religion should question the impact of the paternal function on the structuring of religious experience This question is examined here within the context of ancient monasticism and on the basis of ascetic sources mainly the Ladder of John Climacus 7th c as well as by means of the analysis of rituals such as baptism and monastic profession The author demonstrates that the spiritual father refers to paternity as function and that this function is both structural and structuring with respect to religious experience It is also examined how this crossroads concept of fatherhood is linked to other psychic realities such as the maternal dimension of religious desire and the role of the community the relations between the real the imaginary and the symbolic the paternal uncertainty the articulation of the mystical desire with the Law and the control of sexuality This study shows the importance of this function for bringing together structure and development in the religious experience and indicates the risks of this paternity for a religious pathology

La Pensee logique et politique de M. Merleau-Ponty Joseph M Labaki, 2021-01-20 Maurice Merleau Ponty is the giant phenomenologist of his time in the entire French speaking world He is not an epistemologist nor a moralist For him the beginning of the beginning is human flesh the flesh becomes word the word becomes flesh and both die There is science and there is experience perception The mother is the latter They aren t contradictory but complete and depend on each other With regard to language for him there are words and there is grammar A word is never empty but carries its own weight even a lie is full of meaning Liberty resides in grammar an individual function and independent from books It s in the grammar where singularity lives Thinking and talking are the same Wherever there is human life there is meaning and that is

irrespective of age culture religion education or social position Merleau Ponty is not a Marxist nor a communist According to him history is blind it has no mind He also finds a flaw in Freudianism Flesh is an infinite universe full of stars and black holes Following Merleau Ponty verity is dévoiler and dévoiler is verity but verity is never absolute One must take a step back There is light and there is shadow they never coincide in human life The shadow is always first and no matter how one tries to run he will never catch his shadow
