**The Transformative Philosophical Dialogue** Shai Tubali, 2023-09-25 This book explores dialogue as a transformative form of philosophical practice by unveiling the method behind the unique dialogue developed by mystic and thinker Jiddu Krishnamurti 1895 1986 While Krishnamurti himself generally rejected the cultivation of systems and techniques Shai Tubali argues that there are easily identifiable patterns through which Krishnamurti strove to realize his dialogical aims For this reason he refers to this method whose existence has evaded Krishnamurti's followers and scholars alike as the Krishnamurti dialogue He suggests that these discursive patterns serve to broaden our understanding of the possibilities of philosophical and religious dialogues and further illuminate established forms of dynamic discourse such as the Socratic method Inspired by Pierre Hadot's revolutionary reading of the classical Greco Roman texts the author centers his attention on Plato's Socratic dialogues and the guru-disciple conversations in the Hindu Upanishads which fall within the scope of what may be termed the transformative dialogue dialogues that have been written with the intention of bringing about a transformation in the mind of the interlocutor and reader and reorienting their way of life This text appeals to students as well as researchers and suggests that the Krishnamurti dialogue is not only a continuation and development of the transformative dialogue but that it also amalgamates ingredients of classical Western philosophy and South Asian mysticism Moreover this type of dialogue encourages readers to revisit the lost practice of transformative philosophy in that it reveals new pathways of philosophical and religious inquiry that bear thought-provoking practical implications Narrating Knowledge in Flannery O'Connor's Fiction Donald E. Hardy, 2003 It also he maintains allows readers to appreciate the mysteries O'Connor sought to underscore

**Dialogue with Robots: Constructive Approaches for Understanding Communication** Randy Gomez, Casey Kennington, Koji Inoue, Peter Ford Dominey, Takahisa Uchida, 2025-12-10 In recent years robots that have dialogues with humans have become increasingly common in our daily lives For example smart speakers and spoken dialogue systems installed in smartphones and robots that interact with people in stores have been developed Dialogue systems commonly fall under two scenarios of use task-oriented and non-task-oriented Task-oriented systems perform interactions necessary to achieve a specific goal e.g. making a reservation On the other hand non-task-oriented systems perform interactions in which the focus of the interaction is the dialogue itself While the development of speech recognition technology has enabled these systems to interact with people their ability to engage in meaningful dialogue is still limited This Research Topic focuses on social dialogue with robots which has been actively studied in recent years This Research Topic calls for papers on the research and development necessary to allow robots and people to engage in rich social dialogue First we need basic technologies for robots to understand human interaction In addition to large-scale language models which have advanced remarkably in recent years we need technology that enables robots to understand the intent and characteristics of the user Furthermore technology that enables robots to generate dialogue by applying these technologies is needed At the same time

it is necessary to consider the basic question of why people engage in dialogue It is also important to promote the construction of robot human and human human social relationships as human robot interaction HRI This Research Topic aims to approach these issues and invites papers on these topics *The Syntax of Hungarian* Katalin É Kiss,2002-06-13 Publisher Description **The Dialogue of Negation** Jeremy Lester,2000-03-20 Shows how transnational corporations use lobby groups to shape EU policy New updated edition **Rethinking Freire and Illich** Rosa Bruno-Jofré,Michael Attridge,Jon Igelmo Zaldívar,2023-10-02 Marking the fiftieth anniversary of two of the most influential books in modern educational and social theory Rethinking Freire and Illich introduces readers to the results of the symposium of Paulo Freire s Pedagogy of the Oppressed and Ivan Illich s Deschooling Society The collection uniquely analyses Freire and Illich together although not in a comparative way It acknowledges that both Freire and Illich led in different ways to a new approach to perceiving and understanding the concept of liberation as a human condition while also presenting current criticisms of their work from a gendered perspective and by Indigenous scholars in the US and Canada Drawing on contributions from historians of education theologians digital experts and philosophers of education the book offers a historical analysis using extensive primary sources and an originality of topics It introduces the ways in which the current generation reads the overall works of Freire and Illich in the search for a reconstructed democratic education As a result Rethinking Freire and Illich presents Freire and Illich in light of contemporary issues in this generation and offers renewed searches for a good and just life and a reconstructed democratic education *The Dialogues of Plato* Plato,1875 *Grammar of Spoken and Written English* Douglas Biber,Stig Johansson,Geoffrey N.
