Each page comprises a self-contained one-page exercise ensuring children only need to focus on one simple activity at a time. In today's world most children probably read less than their parents or grandparents did at the same age. Distractions such as television and video games take up many hours that could be spent in reading. To excel in reading requires plenty of practice. In this third book in the series Excel Basic Skills Basic Reading Skills Years 5-6 the activities cover a wide range of reading skills such as basic comprehension of a text, predicting words in a story, recognising different voices in a text, finding words that are wrong, sorting different kinds of words, fun activities such as anagram puzzles and simple crosswords are also included.
