Basic Values Of Western Civilization :

Basic Values of Western Civilization Shepard Bancroft Clough,1960 In this book the author tries to discover what goals people are striving to attain what behavior members of our culture expect their fellows to follow and what methods

Westerners have adopted to achieve their purposes **The Core Values of Chinese Civilization** Lai Chen,2016-12-20

Drawing on the core values of western civilization the author refines the counterparts in Chinese civilization summarized as four core principles duty before freedom obedience before rights community before individual and harmony before conflict Focusing on guoxue or Sinology as the basis of his approach the author provides detailed explanations of traditional Chinese values Recent scholars have addressed the concept of guoxue since the modern age sorting through it and piecing it together which has produced an extremely abundant range of information However given that the concepts and theories involved have been left largely unanalyzed this book develops a theoretical treatment of them in several important respects First it analyzes the mindset of guoxue examining the dominant ideas and values of the era from which the term guoxue arose focusing on its connection to early changes and trends in society and culture and distinguishing three key phases of development Past scholars mainly had in mind the range of objects studied in guoxue when defining it and what this book underscores is the meaning of guoxue as a modern body of research Secondly it assesses several phases in the modern evolution of the body of guoxue research from the beginning to the end of the 20th century i e ending with the later phase of the National Heritage movement Third and lastly the book explores the various main modes of modern guoxue which correspond step by step with the evolutionary phases of guoxue research Understanding Western Society: A History, Volume One John P.

McKay,2022-12-06 A lively journey through the story of Western civilization focusing on societies cultures and the lives of both ordinary and extraordinary men and women *A History of Orthodox, Islamic, and Western Christian Political Values*

Dennis J. Dunn,2016-09-13 The book reveals the nexus between religion and politics today and shows that we live in an interdependent world where one global civilization is emerging and where the world s peoples are continuing to coalesce around a series of values that contain potent Western overtones Both Putin s Orthodox Russia and regions under the control of such Islamist groups like ISIS and Al Qaeda resent and attempt in a largely languishing effort to frustrate this series of values The book explains the current tension between the West and Russia and parts of the Muslim world and sheds light on the causes of such crises as the Syrian Civil War Russia s aggression against Ukraine and acts of terrorism such as 9 11 and

the ISIS inspired massacres in Paris It shows that religion continues to affect global order and that knowledge of its effect on political identity and global governance should guide both government policy and scholarly analysis of contemporary history
