*The Battle of the Ironclads* John V. Quarstein,1999 Battle of the Ironclads brings to life the dramatic events which occurred in Hampton Roads on March 8 and 9 1862 This first battle between armored vessels often called the Monitor Merrimack engagement is perhaps the most significant naval event of the entire Civil War This thrilling history is the first volume to offer a comprehensive pictorial interpretation of the men and ships that forever changed naval warfare Over 150 images including photographs engravings paintings and sketches have been gathered from museums archives and private collections to chronicle the exciting story of the U S S Monitor and the C S S Virginia Merrimack While Battle of the Ironclads is a visual history of the first battle between armored ships it is also a saga of uncommon valor and leadership epitomized by Franklin Buchanan George U Morris Samuel Dana Greene and John Taylor Wood The brilliant innovations of John Mercer Brooke and the farsighted inventions of John Ericsson made this showdown in Hampton Roads a death for wooden sailing ships Battle of the Ironclads is indeed an epic tale that tells how steam powered iron vessels not only influenced the Civil War but more importantly how the two ironclads echoed the dawn of modern navies

*Ironclad* Arthur Mokin,2013-12-10 The narrative begins on April 6 1861 We meet an anxious Gideon Welles Secretary of the U S Navy He fears war is about to break out and is concerned that the Confederates will confiscate units of the U S fleet in southern ports He is particularly concerned about the recently built USS Merrimack one of the few steam powered ships in the navy On April 12 the Confederates fire on Ft Sumter and the long devastating war begins Abe Lincoln and his cabinet realizing the south has no industrial capacity and that it plans to import all weaponry and materiel in return for cotton settle on the stratagem of blockade To his dismay Welles learns that the

Confederates have seized Merrimack and plan to refit her as an ironclad with which to bust the anticipated blockade Welles also learns that a New York engineer claims to have designed an ironclad that can counter Merrimack and moreover guarantees to build it in one hundred days Each side sets about frantically to build its ironclad Merrimack in Norfolk and Monitor in New York It is a race that can decide the outcome of the war since England France and Spain signal their intention to intervene on the side of the Confederacy if the integrity of the Union blockade cannot be maintained On Saturday March 8 1862 Merrimack steams into Hampton Roads anchorage of the U S blockading force and the confederate ironclad decimates the Union fleet of wooden ships The following day Monitor steams onto the scene and the epic battle of the first ironclad warships begins it proves to be the most critical naval engagement of the war and one that renders the wooden navies of the world obsolete

*Iron Dawn* Richard Snow,2016-11-01 An utterly absorbing account of one of history s most momentous battles Forbes that not only changed the Civil War but the future of all sea power from acclaimed popular historian Richard Snow who writes with verve and a keen eye The New York Times Book Review No single sea battle has had more far reaching consequences than the one fought in Hampton Roads Virginia in 1862 The Confederacy with no fleet of its own took a radical step to combat the Union blockade building an iron fort containing ten heavy guns on the hull of a captured Union frigate named the Merrimack The North got word of the project and in panicky desperation commissioned an eccentric inventor named John Ericsson to build the Monitor an entirely revolutionary iron warship Rushed through to completion in just one hundred days it mounted only two guns but they were housed in a shot proof revolving turret The ship hurried south from Brooklyn only to arrive to find the Merrimack had already sunk half the Union fleet and would be back to finish the job When she returned the Monitor was there She fought the Merrimack to a standstill and many believe saved the Union cause As soon as word of the fight spread Great Britain the foremost sea power of the day ceased work on all wooden ships A thousand year old tradition ended and the naval future opened Richly illustrated with photos maps and engravings *Iron Dawn* renders all previous accounts of the encounter between the Monitor and the Merrimack as obsolete as wooden war ships The Dallas Morning News Richard Snow brings to vivid life the tensions of the time in this lively tale of science war and clashing personalities The Wall Street Journal

Davis,2012-05-09 One was called a tin can on a shingle the other a half submerged crocodile Yet on a March day in 1862 in Hampton Roads Virginia after a five hour duel the U S S Monitor and the C S S Virginia formerly the U S S Merrimack were to change the course of not only the Civil War but also naval warfare

Still,2010-09-01 The 1862 battle between the ironclads USS Monitor and the CSS Virginia aka Merrimack is rightly regarded as a key turning point in both the naval history of the American Civil War and world naval history At a stroke the wooden navies of the world were rendered obsolete by the unique craft Despite the immense significance of the ships however comparatively little information is available about the six officers who commanded the Monitor during its brief history *Ironclad Captains* The Commanding Officers of the USS Monitor presents brief carefully researched biographies of the six men who commanded the Monitor ranging from John Worden the man who fought his ship in the great battle to John Payne Bankhead who had to order the Monitor abandoned in sinking condition during a fierce storm off North Carolina's Outer Banks Although none of these officers commanded the Monitor for very long a mere four days in the case of Thomas Oliver Selfridge these officers were involved in most of the major naval actions of the Civil War and participated in nearly every type of activity in which the Navy was involved in that five year period In short their combined story constitutes a case history of the Union navy as well as providing fascinating details of a career in the 19th century American navy
