The Battle of the Books W. J. The Last Battle of Atlantis Thomas D. Turner, 2012-12 Twelve thousand years ago heroes and antagonists were made Civilizations were starting to flourish Within their social structures there was love honor and friendship On the other side of the spectrum there was also greed fear and power Within the last one hundred years archeologists and paleontologists unearthed a new world After the Ice age archeologists discovered civilizations with architectural buildings and commerce Paleontologists have proof of animals which were not like we are accustomed to today They have uncovered giant sloths mammoths giant rhinos and giant elk all living amongst the civilizations before written history So far Atlantis is a legend In those legends there had to be a leader and hero that brought Atlantis together The story

of Atlandreous unfolds as Duncan a present day archeologist visions the beginning of the Atlantean Empire *In Wild*
