Kolie E. Crutcher, III, 2007-12-01 Probably the greatest tragedy of the human race is the failure of the overwhelming majority of people to realize their dreams Your dreams are realized as a result of creating power in your life But because most people have no clue about how to create power in their lives their dreams remain unrealized With that being said quite naturally the question becomes How do I create power in my life The answer to this question is found within the pages of this book Think about the following You cannot turn on the light in your home without electric power In the same fashion you cannot turn on the dreams in your life without personal power Electric Living The Powerful Life demonstrates the process of creating that personal power necessary to turn on the dreams in your life by relating it to the electric power necessary to turn on a common light bulb in your home That is my promise to you the reader This is NOT just another motivational book And here is why as you will learn motivation is only part of the formula for creating power If all you want is motivation there are countless other books that you can purchase Yes Electric Living The Powerful Life will motivate you but it does not stop there This book goes the extra mile and gives you a formula for creating
