Animal Behavior In The Laboratory:

Exploring Animal Behavior in Laboratory and Field Bonnie J. Ploger, Ken Yasukawa, 2003 Designed to provide a variety of exercises that engage students actively in all phases of scientific investigation from formulating research questions through interpreting and presenting final results Suited to undergraduates each chapter presents an animal behavior exercise tested by academic members of the Animal Behavior Society Four types of exercises are presented 1 traditional exercises in which students follow a pre determined protocol to test particular hypotheses 2 traditional exercises that can easily be adapted to inquiry based approaches 3 combined pedagogy exercises that involve both traditional and inquiry approaches and 4 inquiry exercises in which students brainstorm to generate their own hypotheses then design their own experiments to test them Exercises cover descriptive ethology causation and development of behavior and behavioral ecology Both field and laboratory exercises are included on arthropods fish amphibians reptiles birds and mammals Animal Behaviour in the Laboratory Paul Silverman, 1978 **Animal Behaviour in the Laboratory** Paul Silverman, 1978 **Field and Laboratory Exercises in Animal Behavior** Chadwick V. Tillberg, Michael D. Breed, Sarah J. Hinnert, 2007-09-04 Field and Laboratory Exercises in Animal Behavior is an interactive laboratory manual for students in animal behavior ethology and behavioral ecology It is the first of its kind in this subject area that guides students through the diverse and fascinating fields of behavioral and ethological studies employing a wide array of organisms as model systems for the study of behavior Students participate in the development of hypothesis and turn the recording analysis and interpretation of data into an active and engaging process A teacher friendly companion website provides extensive teaching notes on the background to each lab project tips and hints for successful project presentation sources for studying organisms ideas for variations in labs and alternate study organisms This text is recommended for undergraduate courses in Animal Behavior Ethology and Behavioral Ecology Provides fully developed and tested laboratory exercises Offers both field and lab experiences adaptable for fall spring or summer courses Laboratories emphasize student thought and involvement in experimental design Includes an online supplement to the manual for teachers **Behavioral Biology of Laboratory Animals** Kristine Coleman, Steven J. Schapiro, 2021-08-11 CHOICE Highly Recommended title 2022 This 30 chapter volume informs students and professionals about the behavioral biology of animals commonly housed in laboratory and other captive settings Each species evolved under specific environmental conditions resulting in unique behavioral patterns many of which are maintained in captivity even after generations of breeding Understanding natural behavior is therefore a critical part of modern animal care practices The descriptions data guidance resources and recommendations in this book will help the reader understand their animals better refine the care and treatment that they receive and improve the well being welfare and wellness of their animals The book is divided into three sections all focusing on aspects of the behavioral biology of animals found in laboratories and related research settings After five introductory chapters 25 chapters are dedicated to specific taxonomic

groups including mice zebrafish zebra finches reptiles macaques while a concluding section of ethograms provides a centralized resource for those interested in understanding and potentially quantifying animal behavior The Behavioral Biology of Laboratory Animals will provide anyone working in maintenance care and or research programs that involve laboratory animals with information about the way the animals live in the wild and the way that they should live in captive research settings Many of the guidelines and recommendations will also be valuable to those managing and working with animals in other environments including zoological parks aquaria and sanctuaries
