Your Inner Zoo Belinda Recio,2022-01-11 What might we learn about our own human natures from the friskiness of a young goat the focus of a hawk the transformation of a butterfly or the hibernation of a bear How can animals through their natural and cultural histories offer us ideas that could help us better understand ourselves navigate a relationship or change an aspect of our lives Do the animals that we admire or fear reveal something about us What about the animals who appear in our dreams visions and creative inspirations These are some of the questions addressed in Your Inner Zoo A Guide to the Meaning of Animals and the Insights They Offer Us You can use Your Inner Zoo to explore yourself through animals to approach animals as teachers and guides to explore the possible meaning of animal encounters to connect with animals through their natural and cultural histories as an animal symbolism dictionary By exploring animal biology and behavior as well as the cultural roles that animals play in symbolism mythology and traditions Your Inner Zoo invites you to approach animals as a source of provocative ideas that can lead to self discovery and a deeper sense of connection with the more than human world

Transformation of the Psyche Joseph L. Henderson,Dyane N. Sherwood,2004-06-02 Written by Joseph L Henderson one of the first generation of Jungian analysts and Dyane N Sherwood a practising analyst this book is a striking and unique contribution to the resurgence of interest in alchemy for its way of representing the phenomenology of creative experience Transformation of the Psyche is organized around 22 illuminated paintings from the early Renaissance alchemical manuscript the Splendor Solis and is further illustrated by over 50 colour figures The images of the Splendor Solis are possibly the most beautiful and evocative alchemical paintings to be found anywhere and they are widely known to students of alchemy Jung reproduced several Splendor Solis images in his works yet prior to this book no one has explored the symbolism of the paintings as a series in relation to the process of depth psychological transformation This book is the first scholarly study of the paintings in their entirety and of the mythological and historical allusions contained within the images Transformation of the Psyche does not simply explain or analyze the pictures but invites the reader to participate in the creative and transforming process evoked by these images Transformation of the Psyche is a truly unique book that will be of immense value and interest to analysts and psychotherapists as well as scholars of mediaeval and renaissance intellectual history and students of spiritual disciplines
