Brewers' Guardian, 1878 Myth, Legend & Romance Dáithí Ó hÓgáin, 1991 The works of Joseph Campbell his highly acclaimed PBS interview with Bill Moyers and the steadily expanding awareness of and interest in Jungian psychology have all contributed to an explosion in demand for scholarly yet accessible works on mythology and folklore This first volume in a series on world mythologies will claim a place in the first ranks of the literature of lore 100 illustrations The Cumulative Book Index, 1994 A world list of books in the English language *Enterprise as a Carrier of Culture* Hirochika Nakamaki, Koichiro Hioki, Noriya Sumihara, Izumi Mitsui, 2019-05-08 This book expands anthropological studies of business enterprise to include comparative and interdisciplinary perspectives A number of books on business anthropology have been published but most of them are written by anthropologists alone By contrast this book engages interdisciplinary studies e.g. not only by anthropologists but also management scholars and other social scientists It is the second volume of studies forwarding anthropological approaches to business administration Keiei Jinruigaku This volume focusses on the cultural dimensions of enterprise Here enterprise is viewed as a medium carrying culture rather than solely an entity of production and management as is typical in mainstream studies The approach is based on Tadao Umesao's definition of culture as a projection of instruments devices and institutions into the mental spiritual dimensions of life Therefore in our view production and management are among the projections of the cultural aspects of enterprise This perspective we believe constitutes a new frontier in the study of business administration This book consists of three parts the first being religiosity and spirituality the second exhibitions performance and inducement and the third history and story In Part I Quaker Codes ex

votos and spiritual leadership are discussed in relation to management and behavior and miracles and pilgrimage Part II describes exhibitions justifying nuclear power industry within power plants in both Japan and England the exhibition by English families of their porcelain collections and the performance skills of orchestral maestros All of these examples indicate that through the use of narratives and myths exhibits and performances overtly and covertly induce visitors or audiences to certain viewpoints and emotions Part III offers examples of histories and stories of enterprise articulated through the branding and consumption of industrial products and their display in enterprise museums where the essence of culture and heritage is cherished and emphasized by and for the wider community and the enterprise itself Conjoined as an interdisciplinary team of Western and Japanese researchers we apply an anthropological approach to the cultural history of enterprise in both Britain and Japan The Brewers Journal and Hop and Malt Trades Review ,1927 **Books in Print** ,1994
