## **Bridge From Nowhere:**

*The Bridge to Nowhere* Megan McDonald, 1993 Seventh grader Hallie is adjusting to friendship with an exciting older boy when her father a bridge builder temporarily out of work becomes an angry stranger in his own house

Of Bridges Thomas Harrison, 2023-06-05 Offers a philosophical history of bridges both literal bridges and their symbolic counterparts and the acts of cultural connection they embody Always wrote Philip Larkin it is by bridges that we live Bridges represent our aspirations to connect to soar across divides And it is the unfinished business of these aspirations that makes bridges such stirring sights especially when they are marvels of ingenuity A rich compendium of myths superstitions and literary and ideological figurations Of Bridges organizes a poetic and philosophical history of bridges into nine thematic clusters Leaping in lucid prose between distant times and places Thomas Harrison questions why bridges are built and where they lead He probes links forged by religion between life s transience and eternity as well as the consolidating ties of music illustrated by the case of the blues He investigates bridges in poetry as flash points in war and the megabridges of our globalized world He illuminates real and symbolic crossings facing migrants each day and the affective connections that make persons and societies cohere In readings of literature film philosophy and art Harrison engages in a profound reflection on how bridges form and transform cultural communities Of Bridges is a mesmerizing vertiginous tale of bridges both visible and invisible both lived and imagined

**Change You Can Really Believe in** Joseph Toomey,2012-04 No President in living memory has entered office with a greater amount of goodwill and broad bi partisan support than Barack Obama And few Presidents in living memory had arrived in Washington proclaiming such dramatically articulated vows to change the tone of politics to usher in an era of post partisanship in an effort to rally the nation behind his plan of enacting an ambitious program of social and economic change He vowed to enact a broad bi partisan agenda for health care reform energy transformation economic revitalization job growth and restoration of America s standing in the world And no President in living memory has more quickly and more completely abandoned his promises He enacted a health care plan that far more resembled plans he had bitterly criticized his opponents for supporting rather than the one his campaign outlined His promised job growth through economic stimulus measures drove up the unemployment rate to double digits leading to millions of job losses His vows to restore fiscal probity resulted in the most ruinous deficits and public debt in U S history He green energy program collapsed into a cesspool of crony political favoritism His vows to restore relations with hostile nations like Iran and North Korea had only deepened those nations disdain for America Despite his harsh criticisms Obama adopted nearly every plank in the Bush era anti terror policy His promise to restore science to its rightful place resulted in the most rigidly inflexible program of ideological extremism in modern memory Even more noteworthy was the fact that the new era of post partisanship he had vowed to create in Washington resulted in the worst political gridlock in living memory This book examines in detail hundreds of campaign promises Obama made while running for President contrasting those with the record of failure and broken promises left in his wake It is a story that has received too little attention until now
