Siegel, 2023-03-15 As featured on CBS Saturday Morning Finalist for the 2023 National Book Critics Circle John Leonard Prize In *Judgment and Mercy* Martin J. Siegel offers an insightful and compelling biography of Irving Robert Kaufman the judge infamous for condemning Julius and Ethel Rosenberg to death for atomic espionage In 1951 world attention fixed on Kaufman's courtroom as its ambitious young occupant stridently blamed the Rosenbergs for the Korean War To many the harsh sentences and their preening author left an enduring stain on American justice But then the judge from Cold War central casting became something unexpected one of the most illustrious progressive jurists of his day Upending the simplistic portrait of Judge Kaufman as a McCarthyite villain Siegel shows how his pathbreaking decisions desegregated a Northern school for the first time liberalized the insanity defense reformed Attica era prisons spared John Lennon from politically motivated deportation expanded free speech brought foreign torturers to justice and more Still the Rosenberg controversy lingered Decades later changing times and revelations of judicial misconduct put Kaufman back under siege Picketers dogged his footsteps as critics demanded impeachment And tragedy stalked his family attributed in part to the long ordeal Instead of propelling him to the Supreme Court as Kaufman once hoped the case haunted him to the end Absorbingly told *Judgment and Mercy* brings to life a complex man by turns tyrannical and warm paranoid and altruistic while revealing intramural Jewish battles over assimilation class and patriotism Siegel who served as Kaufman's last law clerk traces the evolution of American law and politics in the twentieth century and shows how a judge unable to summon mercy for the Rosenbergs nonetheless helped expand freedom for all *Radical Reality* Caty Borum, Caty Borum Chattoo, David Conrad-Pérez, 2025-04-11 *Radical Reality* reveals how independent documentary makers around the world produce cinematic stories that speak truth to power and why nonfiction storytelling matters for social justice Pushing against increasingly difficult political and economic constraints these tenacious filmmakers produce artistic nonfiction stories that stand up for

freedom of expression serve as witnesses to conflict and resilience maintain cultural memory of human rights abuses and open intimate windows into acts of protest activism reconciliation and resistance that often go unseen in dominant news portrayals They collaborate with activists and civil society leaders to create powerful movements of dissent centering underrepresented voices providing spaces for community healing and recognition and challenging damaging narratives of people and their lived realities and they do so in significant times Across the globe forms of repression continue to be wielded against artists who challenge power And yet there is hope and inspiration found in the hands of storytellers who marshal a way forward again and again to push the status quo toward justice This book tells their stories *Fighting Words* Patricia Hill Collins,1998 A professor of sociology explores how black feminist thought confronts the injustices of poverty and white supremacy and argues that those operating outside the mainstream emphasize sociological themes based on assumptions different than those commonly accepted Original UP **We Are All Witnesses** Mitzi J. Smith,Michael Willett Newheart,2023-02-10 We Are All Witnesses is a remarkable sassy creative disruptive and deeply personal textbook It is like no other text on biblical interpretation Smith and Newheart have produced a groundbreaking milestone book about how to do biblical interpretation that prioritizes justice and the reader s context It is both memoir and metatestimony The layperson college students and seminary students will find this book accessible It is indeed creative witty and wayward *Words Matter* King-Kok Cheung,2000-02-01 In this age of rapid transition Asian American studies and American studies in general are being reconfigured to reflect global migrations and the diverse populations of the United States Asian American literature in particular has embodied the crisis of identity that is at the heart of larger academic and political debates surrounding diversity and the inclusion and exclusion of immigrant and refugee groups These issues underlie the very principles on which literature culture and art are produced preserved taught and critiqued *Words Matter* is the first collection of interviews with 20th century Asian American writers The conversations that have been gathered here interviews with twenty writers possessing unique backgrounds perspectives thematic concerns and artistic priorities effectively dispel any easy categorizations of people of Asian descent These writers comment on their own work and speak frankly about aesthetics politics and the challenges they have encountered in pursuing a writing career They address among other issues the expectations attached to the label Asian American the burden of representation shouldered by ethnic artists and the different demands of mainstream and ethnic audiences *Studies in the History of the English Language III* Christopher M. Cain,Geoffrey Russom,2009-02-26 The essays of this volume employ diverse strategies for conceptualizing the history of English as at once chaotic and yet amenable to circumscribed analyses that incorporate a broad view of language change Several of the world s leading scholars of the English language contribute to the overall perspective that an elaboration of linguistic cultural and social contexts and a renewed emphasis on the concrete historical conditions of language change are necessary to approach some long standing obstacles in the study of the history of the English language Designed for students

teachers and scholars of the English language Managing Chaos Strategies for Identifying Change in English SHEL III presents studies on all periods of the English language in a variety of theoretical and methodological modes Highlights include Anatoly Liberman s sweeping comparative revision of the history of palatalized and velarized consonants in English William Kretzschmar s et al wittily illuminating study of a suburban Atlanta Georgia town that epitomizes the specific ways in which inter regional linguistic variation can be maintained while local social factors drive dramatic change on an intra regional level Lesley Milroy s innovative analysis of recent unitary changes in global Englishes that cannot be accounted for by classic Labovian models that situate language change within small close networks of speakers who mediate variation in face to face interactions an observation that leads Milroy to propose two distinct but cross influencing levels of social dynamics in language change All of the essays of this volume include careful critiques of the construction of our present understanding of the history of English thus marking the path behind while shining a light on the way ahead for the future of the discipline
