Government Setting a Good Example?* L. W. Huberts, André van Montfort, Alan Doig, 2006 To what extent and in which  
manner do government bodies break laws and rules What are the reasons for doing so and what are the consequences Are  
public bodies less law and rule abiding than private organizations and corporations This book discusses these issues based on  
research in the Netherlands and the United Kingdom It pays attention to rule and law breaking in areas such as  
environmental protection fire safety and working conditions It is concluded that government bodies break rules across the  
board and in all policy sectors Government organisations regularly violate administrative law regulations and to a lesser  
extent commit criminal law violations This is true for all levels of government and all policy areas The reasons not only relate  
to deliberate intent but are also increasingly linked to the complexity of managing and delivering public functions Thus rule  
and law breaking warrants more attention in policy and regulation as well as in research in public administration criminology  
public ethics law and political science A state that ignores its own rules and laws cannot expect citizens to be willing to obey  
the laws rules and policies of its political and administrative system Governments that do not set a good example could  
seriously jeopardize their own credibility and integrity *Legislative Document* New York (State). Legislature, 1929 The
