Framing Crime Keith Hayward,the late Mike Presdee,2010-07-02 In a world in which media images of crime and deviance proliferate where every facet of offending is reflected in a vast hall of mirrors Framing Crime Cultural Criminology and the Image makes sense of the increasingly blurred line between the real and the virtual Images of crime and crime control have become almost as real as crime and criminal justice itself The meaning of both crime and crime control now resides not solely in the essential and essentially false factuality of crime rates or arrest records but also in the contested processes of symbolic display cultural interpretation and representational negotiation It is essential then that criminologists are closely attuned to the various ways in which crime is imagined constructed and framed within modern society Framing Crime responds to this demand with a collection of papers aimed at helping the reader to understand the ways in which the contemporary story of crime is constructed and promulgated through the image It also provides the relevant analytical and research tools to unearth the hidden social and ideological concerns that frequently underpin images of crime violence and transgression Framing Crime will be of interest to students and academics in the fields of criminology crime and the media and sociology

Searching For Memory Daniel L Schacter,2008-08-04 Memory There may be nothing more important to human beings than our ability to enshrine experience and recall it While philosophers and poets have elevated memory to an almost mystical level psychologists have struggled to demystify it Now according to Daniel Schacter one of the most distinguished memory researchers the mysteries of memory are finally yielding to dramatic even revolutionary scientific breakthroughs Schacter explains how and why it may change our understanding of everything from false memory to Alzheimer s disease from recovered memory to amnesia with fascinating firsthand accounts of patients with striking and sometimes bizarre amnesias resulting from brain injury or psychological trauma
