Claude Lorrain and artworks Sergei Daniel, 2022-12-06 Claude Gellée called Claude Lorrain was neither a great man nor a lofty spirit like Poussin. His genius cannot however be denied and he was like Poussin a profoundly original inventor within the limitations of a classical ideal. He too spent most of his life in Rome though the art he created was not specifically Italian but French. For more than two centuries afterwards everyone in France who felt called upon to depict the beauties of nature would think of Lorrain and study his works whether it be Joseph Vernet in the eighteenth century or Corot in the nineteenth. Outside France it was the same. Lorrain was nowhere more admired than in England. There is an element of mystery in the vocation of this humble and almost illiterate peasant whose knowledge of French and Italian was equally poor and who used to inscribe on his drawings notes in a strange broken Franco-Italian. This mystery is in some way symbolic of that with which he imbued his pictures: le mystère dans la lumière. This admirable landscapist drew from within himself the greatest number of extraordinary pictures in which all is beauty, poetry and truth. He sometimes made from nature drawings so beautiful that several have been attributed to Poussin but in his paintings his imagination dominates growing in magnitude as he realised his genius. He understood by listening to Poussin and watching him paint that a sort of intellectual background would be an invaluable addition to his own imagination, visions, dreams and reveries.

Claude Lorrain--the Painter as Draftsman Richard Rand, Antony Griffiths, Colleen M. Terry, 2006 The great French artist Claude Lorrain 1600-1682 for whom drawing was an integral part of the artistic process spent most of his career in Italy where he documented the beauty of the landscape and the splendor of classical ruins. This richly illustrated book examines the wide ranging role the medium played throughout Claude's career. The book presents some of Claude's most remarkable drawings representing all aspects of his style and subject matter from informal outdoor sketches of trees, rivers and ruins to formal presentation drawings and elaborate compositional designs for paintings many of which have never before been reproduced in color. A detailed and scholarly essay places them within the social and cultural contexts of their time and includes comparative illustrations of paintings and etchings to situate them within the artist's oeuvre. A selection of works from the Liber Veritatis Book of Truth a portfolio of highly finished drawings that the artist created to document his own painted compositions is also included.

Delphi Complete Paintings of Claude Lorrain (Illustrated) Claude Gellée, Peter Russell, 2017-02-27 Revered by artists and collectors since the seventeenth century Claude Lorrain was a master of landscape painting raising the reputation of the art form to new heights. His paintings present idealised views of nature governed by Classical concepts and fuelled by the inspiration of the Roman Campagna. Claude's special contribution was the poetic rendering of light which would particularly influence the Romantic movement and change the course of art.
