Claudio Arrau: The Maestro and The Masters, 1988 *Piano Lessons with Claudio Arrau* Victoria A. von Arx, 2014-05-28

Piano Lessons with Claudio Arrau provides an insider's view of the art of piano performance as exemplified by one of the great artists of the twentieth century Chilean pianist Claudio Arrau devoted his life to the piano and its music As a child prodigy he gained national recognition from government officials in Chile including President Pedro Montt who funded Arrau's education in Germany Arrau studied in Berlin with Martin Krause a pupil of Franz Liszt and later immigrated to New York City where he taught and mentored a sizeable group of pupils while at the same time managing an international performing career Arrau's profound musical insight and unique style of teaching inspired his pupils and motivated them to teach his principles to the next generation of students This in depth study of Arrau's principles and philosophy of technique and performance draws on information from published interviews with Arrau from numerous interviews with Arrau's pupils and from the author's experience in studying piano with two of them Transcripts of actual lessons given by Arrau and preserved on tape present in his own words a detailed account of his technical and interpretive ideas about five major works of the piano repertory References to over one hundred examples from Arrau's filmed recordings enable readers to observe the elements of Arrau's famed technique in action

Notable Twentieth-century Pianists John Gillespie, Anna Gillespie, 1995

Pianists their lives performances and recordings are detailed in this two volume set Each biographical essay emphasizes musical background and training special influences on development significant performances and more Performance is analyzed and emphasis given to style and repertoire For those pianists who recorded there are selective discographies and reviews of outstanding recordings The authors attended many performances and often supply a personal dimension to the discussions This readable work containing extensive documented coverage of 100 artists will be appreciated by scholar student and music buff alike As a sourcebook this work contains biographical data style analyses culled from reviews recordings articles and essays pedagogical history and methods when applicable lists of selected references and reviews and a representative discography The result is an objective thorough presentation of the lives and performances of 100 notable pianists The list initially derived from correspondence with pianists and pedagogues in music conservatories and colleges throughout the United States and after eight years of research in both libraries and concert halls The text reads easily and is fascinating but the vast amount of information and the careful scientific analysis make it a scholarly work of the highest order useful to graduate students as well as the general public

Vital Performance Andrew Snedden,2021-03-19 Historically Informed Performance or HIP has become an influential and exciting development for scholars musicians and audiences alike Yet it has not been unchallenged with debate over the desirability of its central goals and the accuracy of its results The author suggests ways out of this impasse in Romantic performance style In this wide ranging study pianist and scholar Andrew John Snedden takes a step back examining the strengths and limitations of HIP He proposes that many problems are avoided when performance styles are understood as expressions of their cultural era rather than as simply composer intention explaining not merely how we play but why we play the way we do and why the nineteenth century Romantics played very differently Snedden examines the principal evidence we have for Romantic performance style especially in translation of score indications and analysis of early recordings finally focusing on the performance styles of Liszt and Chopin He concludes with a call for the reanimation of culturally appropriate performance styles in Romantic repertoire This study will be of great interest to scholars performers

and students to anyone wondering about how our performances reflect our culture and about how the Romantics played their own culturally embedded music
