**South America from a surgeon's point of view** Franklin Henry Martin, 1922 [Encyclopedia of Cryptozoology](#)  
Michael Newton, 2016-10-05 On every continent and in every nation animals unrecognized by modern science are reported on a daily basis People passionately pursue these creatures the name given to their field of study is cryptozoology Coined in the 1950s the term literally means the science of hidden animals When the International Society of Cryptozoology ISC was formed in 1982 the founders declared that the branch of science is also concerned with the possible existence of known animals in areas where they are not supposed to occur either now or in the past as well as the unknown persistence of presumed extinct animals to the present time or to the recent past what makes an animal of interest to cryptology is that it is unexpected This reference work presents a flesh and blood view of cryptozoology Here 2 744 entries are listed the majority of which each describe one specific creature or type of creature Other entries cover 742 places where unnamed cryptids are said to appear profiles of 77 groups and 112 individuals who have contributed to the field descriptions of objects and events important to the subject and essays on cryptotourism and hoaxes for example Appendices offer a timeline of zoological discoveries annotated lists of movies and television series with cryptozoological themes a list of crypto fiction titles and a list of Internet websites devoted to cryptozoology [Argentines of Today](#) William Belmont Parker, 1920 **Science and Catholicism in Argentina (1750-1960)** Miguel de Asúa, 2022-05-09 Science and Catholicism in Argentina 1750 1960 is the first comprehensive study on the relationship between science and religion in a Spanish speaking country with a Catholic majority and a Latin pattern of secularisation The text takes the reader from Jesuit missionary science in colonial times through the conflict ridden 19th century to the Catholic revival of the 1930s in Argentina The diverse interactions between science and religion revealed in this analysis can be organised in terms of their dynamic of secularisation The indissoluble identification of science and the secular which operated at rhetorical and institutional levels among the liberal elite and the socialists in the 19th century lost part of its force with the emergence of Catholic scientists in the course of the 20th century In agreement with current views that deny science the role as the driving force of secularisation this historical study concludes that it was the process of secularisation that shaped the interplay between religion and science not the other way around *Creatures of Fashion* John Soluri, 2024-03-22 Today the mention of Patagonia and Tierra del Fuego conjures images of idyllic landscapes untouched by globalization *Creatures of Fashion* upends this revealing how the exploitation of animals terrestrial and marine domesticated and wild living and dead was central to the region s transformation from Indigenous lands into the national territories of Argentina and Chile Drawing on evidence from archives and digital repositories John Soluri traces the circulation of furs and fibers to explore how the power of fashion stretched far beyond Europe s houses of haute couture to entangle the fates of Indigenous hunters migrant workers and textile manufacturers with those of fur seals guanacos and sheep at the end of the world From the nineteenth century rise of commercial hunting to

twentieth century sheep ranching to contemporary conservation based tourism Soluri s narrative explains how struggles for control over the production of commodities and the reproduction of animals drove the social and environmental changes that tied Patagonia to global markets empires and wildlife conservation movements By exposing seams in national territories and global markets knit together by force this book provides perspectives and analyses vital for understanding contemporary conflicts over mass consumption the conservation of biodiversity and struggles for environmental justice in Patagonia and beyond
